

Bylaws Given Several Readings and Passed by Village Council

Streets Committee To Arrange for Supply of Sand and Salt—Accounts Passed

Bylaw No. 623 to borrow up to \$25,000 from the Bank of Montreal, and bylaw No. 624, to name time and place for holding nominations and election (if required) were given their several readings and passed at the regular meeting of the Village Council held on Monday night. Reeve C. E. Bateman presided and was supported by Councillors G. Noble, Jas. Chambers, B. Jones and R. Anderson.

Council tabled a request for concurrence in a resolution sponsored by Whitby Council seeking an amendment to the Ontario Traffic Act giving municipal councils authority to pass bylaws designating the speed limit in school zones at 15 miles per hour, rather than the current speed rate of 25 miles per hour.

A communication from the Ontario Department of Health was tabled re the plans and specifications of the new Chapel and Vault. The Clerk informed Council that he had forwarded a copy of the said plans as requested.

L.O.D.A. Meeting
Reeve Bateman presented a brief report on the meeting of the Lake Ontario Development Association, to which Councillor Jones and he were delegates from Council. He stated much valuable information was gleaned and he felt it was an organization worthy of the support of the local municipality.

Turning to other matters, the Reeve reported several complaints on the condition of Mill St., under construction by the County, particularly the ditches, and the length of the culverts leading into private driveways. It was pointed out by members of Council that the culverts were the same length as used in all parts of the Village and it was the general consensus that once the street was completed everyone would be satisfied. Council will be required to spend beyond its estimate on the storm drain and sidewalk and consequently no other expenditures will be undertaken.

The matter of securing a supply of sand and salt for sanding purposes this coming winter and having required ditching and repairs done in different parts of the Village was left under the supervision of the Streets Committee and Road Superintendent. Acting Reeve

Councillor Jas. Chambers was appointed acting Reeve for the period between November 5th and 13th, during the absence of Reeve Bateman.

A Federal Provincial Industrial Promotion Conference, slated for November 7th, was drawn to the attention of the members of Council.

Requests for street lights on William St., near H. Blea's residence, and on Wright St. were tabled. The Streets Committee will investigate the matter and report later.

Police Chief Ketcheson's monthly report was tabled and accepted on motion of Councillors Noble and Jones.

C. E. West, representing the Board of Stewards of St. Paul's United Church, interviewed Council relative to the disposal of some excess tables owned by the Church. The Property Committee will inspect the tables and if acceptable, arrange for their purchase.

The following accounts were passed for payment:

Tanner's Service Station, \$24.60; Stirling Welding and Repair, \$2.50; G. C. Mouck Hardware, \$29.47; Armstrong Bros. Co., \$7.25; Walter Rodgers, \$258.63; Rosco Metal, \$211.67; H. J. Miss Woodall will demonstrate and explain the many features of a variety of electrical appliances including washers, dryers, ranges and refrigerators. Electric home heating, water heating and home lighting will also be featured on the programme.

A complete oven meal will be cooked and other food items will be prepared using portable appliances similar to those which may be found in the average kitchen. The two hour programme is not only entertaining but will suggest many ideas as to how you too can "Live Better Electrically."

Attractive door prizes to be drawn for will include the food prepared by the home economist and a number of beautiful electrical appliances which have been donated by local dealers and the Stirling Public Utilities Commission.

Miss Woodall is well qualified to give advice on all matters pertaining to homemaking. She graduated from the University of Western Ontario with a Bachelor of Arts degree in Home Economics. Cubs Observe Hallowe'en

The Stirling Cub Pack held a Hallowe'en party on Monday evening, October 30 in the Public School. The programme opened with the singing of "O Canada" and the Cub prayer.

Mr. Clare West and Rev. P. J. Honnigsen judged the costumes, which were many and varied. The winners were 1st, Ken Nunn; 2nd, Wayne Mayell; 3rd, Timmy Gustafson.

Following the judging the boys played games and Rikkie and Kim told stories. After the sing song the boys had cookies and chocolate milk provided by their parents.

Evan Rodgers has passed the Pet Badge which makes fourteen Badges Evan has received. Bob West has received his thirteenth badge.

There are 19 boys who left Cubs and 17 boys went on into the Troop, making 35 boys in the Troop. There are 48 boys in the Cub Pack, which should be divided into two groups, but it is difficult to obtain leaders.

Apparently some people have the idea that leaders get paid for their efforts but this is a fallacy. The present leaders do this work because they love it and have a high regard for the boys.

Paper Drive November 18th

The next paper drive will be November 18th. Please save your paper as it means money for the boys.

A Letter To The Editor

Dear Sir:

I read with interest in your issue of October 5th that a complaint had been made to the Village Council in regards to the lily and fish pond Mr. Ernest Munro is building in connection with the park he is creating on his property on Church Street.

Instead of condemning Mr. Munro I think he should be commended for turning what was once a stinking swale hole, full of cat-tails, slime and muck, infested with mosquitos and reptiles, into what could well become one of the beauty spots of the Village.

We have had a pond in our yard for eighteen years and hundreds of children have come to admire the lilies and watch and feed the fish. Many of the town dogs come to drink and wade; and stray cats, if hungry enough, learn that with patience, cunning and quickness (three things they are well endowed with) then can get a good feed of fresh fish.

There are many open ditches in the Village which run full of water in the Spring and Fall. Surely no one is so naive as to suggest that these along with the Mill Pond and Rawdon Creek, which runs the full length of the town, be fenced on both sides. A great many children played in the new recreation park near the creek last summer without a fence. There are thousands of pools throughout the country and yet I have never read of a child falling into one. Our streets and highways are much more dangerous and almost every day one reads of children being hit by automobiles. No one suggests fencing our streets and roads.

In order that farmers may be assured of an adequate supply of water in a drought or dry season, the Department of Agriculture advocates that they dig a pond hole in a convenient place and allow it to fill with water in the wet seasons. Many of these are dug in fields adjacent to the highway but I have yet to see one with a fence around it.

There are a goodly number of public and private pools without fences in our neighbouring towns. A year ago the Parks Commission of Belleville built a fountain and pool at the entrance to Victoria Park.

Forgetting about the private pools let me name a few that are visited by thousands of children every year. The grounds of the Governor General in Ottawa which are open to the public have fish and lily ponds. Many of the public parks in Toronto have the same. In Hamilton there are most beautiful pools in the Sunken Gardens, the Botanical Gardens, on the grounds of McMaster University and in Gage Park located almost in the centre of the city.

I have seen man imitating nature with these open water basins, abounding with plant and animal life from the Butchart Gardens near Victoria, B.C. (where the pools are an exact replica of those of Vatican City, Rome), to Bowring Park in St. John,

Newfoundland.

Therefore why should Mr. Munro be restricted from beautifying our Village with that which is no greater hazard than these others.

Considering the amount of time and money Mr. Munro is spending, I trust the Council or Parks Committee will

see fit to assist him with his project by procuring trees and shrubbery to enhance the appearance of the grounds. I would be pleased to supply him with aquatic plants, lilies and fish.

Yours truly,
Maurice Bell

"Strength For These Days"

(By Rev. Bob Donnan)

In times like these you need a Saviour
In times like these you need an Anchor;

Be very sure, be very sure your Anchor holds
And grips the Solid Rock.

In 2 Timothy 3: 1, we read this verse: "This know also, that in the last days perilous times shall come."

This verse is very applicable to the days that we are now living in. These are perilous days; days when we anxiously listen to the news, and read the newspaper headlines. We don't know what tomorrow will bring. It could bring disaster, it could bring sadness in your home, or it could bring circumstances that would change your entire life, but let us leave tomorrow with God, and think only of this day.

God has promised, "As thy days are, so shall thy strength be." Suppose we translate this promise into modern day language, then we have no worry, for God will give us strength for each new day. - Remember this thought, God only builds the bridge as you take each step. Oh, you might say, I can't trust Him, I worry about the tomorrows. Friend, leave your tomorrows with Him, and seek strength to live this day.

Yes, these are perilous days, I believe they are the last days; it is later than we think. Jesus said "In the last days men's hearts would fail them for fear of looking after those things which are coming on the earth. We see Communism pushing back the free world, until today we must confess that this dreaded monster has infiltrated into our beloved Dominion of Canada. Scientists now tell us, they can't assure us of a future, if world affairs continue as they are today. What is the answer?

The disciples once said to Jesus, "To whom else can we go to but to Thee, Thou hast the words of eternal life." Friend, you don't have the answer to your problems and needs but there is One who does. He knows the End and the Beginning, 'tis none other than the Lord Jesus Christ. In these perilous days you need God; be very sure, be very sure your Anchor holds and grips the Solid Rock. In closing I would leave this hymn of the church with you.

"While I draw this fleeting breath,
When my eyes shall close in death,
When I soar to worlds unknown,
See Thee on Thy judgement throne;
Rock of Ages, cleft for me,
Let me hide myself in Thee."

Eggleton

W.M.S. and W.A.

The October meeting of Eggleton W.M.S. and W.A. was held on Thursday afternoon at the home of Mrs. Forde Stapley, with ten members and four visitors in attendance.

Owing to the absence of the W.M.S. President, Mrs. Keith Johnson, the W.A. President, Mrs. Wm. McMullen presided over the thanksgiving programme prepared by Mrs. Maurice Clancy.

Mrs. Murney Kirkey read the Scripture Lesson, Psalm 145 and the commentary, "The Good Providence of God," was given by Mrs. Leslie Thompson, followed by a thanksgiving prayer. A duet by Mr. and Mrs. George Dyson was greatly appreciated.

The thanksgiving envelopes were gathered and dedicated with a prayer by Mrs. Bruce Stapley. Mrs. Murney Kirkey offered her home for the November meeting and Mrs. Bruce Stapley was appointed to prepare the programme.

Mrs. W. Harlow requested that toys should be brought in soon, either to her or to Mrs. C. Fitchett, so they can be wrapped and sent to their destinations. A letter of thanks from Mrs. Harry Clarke was read.

Mr. Dyson spoke on the planned meeting at Moira on October 26th, when four ladies from each Appointment on the Circuit — Thomasburg, Moira, West Huntingdon and Eggleton — will discuss the new women's organization.

The members were reminded to bring their gift boxes to the November meeting.

A reading, "Giving Thanks," was given by Mrs. S. Prest. The closing chapters of the study book were presented by Mrs. Warren Harlow.

Mrs. Russell Stapley, of Stirling, played the accompaniment for two hymns on her accordion.

Mrs. McMullen thanked Mrs. Forde Stapley for the use of her home and

to those who had taken part on the programme.

Mrs. Forde Stapley, assisted by Mrs. Summers, served dainty refreshments and a social half hour was enjoyed.

1962 Ford Fairlane

The car of the year is sure to please --

FAIRLANE incorporates quality construction features to provide the lowest possible repair or replacement costs for the owner. Unitized body construction is employed with bolt-on fenders; more than 3,650 square inches of window space; parallel windshield wipers clear 63 percent of the windshield area leaving less unswept glass in the centre of the windshield.

The Fairlane and Fairlane 500 series offers 11 exterior colors with four interior trim combinations.

The grille, Thunderbird roofline, slight fins and squared-off silhouette, flat hood and fenders all follow the classic Ford straight line styling. The thin roof line maintains the low silhouette appearance while providing adequate entrance room. Useable trunk space of 29 cubic feet is provided by positioning the spare tire in the centre and well up over the axle kick-up.

Many innovations have been incorporated in this new-size car for greater customer convenience. Some of these innovations include: a newly-designed door latch that provides a tightly shut door with the gentlest of pushes; freeze-proof door locks.

A complete line of Ford of Canada accessories is available on both the Fairlane and Fairlane 500 series including optional equipment such as power steering, power brakes, and radio.

In Memoriam

CAMPBELL — In memory of Donald William Campbell, who passed away November 5th, 1952.

He bade no one his last farewell
He said goodbye to none
The heavenly gates were opened
A loving voice said "Come."
I often sit and think of you
The things you used to say,
I wonder why you had to die
Without a chance to say good bye.
Though out of sight, you're ever
Still missed, loved, still mine,
You will live with me in memory
Until the end of time.

— Lovingly remembered by wife,
Edna and family. 36-1

McMASTER — In loving memory of a dear son and brother, Earl McMaster, who passed away October 30th, 1960.

— Ever remembered by Dad, George McMaster; sister Della, Harold and family. 36-1

SINE — In loving memory of a dear husband and father, Delbert M. Sine, who passed away November 3rd, 1954.

Wellman's W.I.

The regular meeting of Wellman's Women's Institute was held at the home of Mrs. Jim Pollock on Wednesday, October 25th with 26 ladies and 10 children in attendance.

The meeting was conducted by the President, Mrs. Gerald Clancy, opening with the Institute Ode, followed by the Lord's Prayer. Mrs. Douglas Clancy acted as musician.

Mrs. G. Clancy welcomed the visitors. Mrs. Kenneth Tompkins read

the minutes and correspondence in the absence of the Secretary, Mrs. John Carlisle. Mrs. Gerald Clancy and Mrs. K. Tompkins were appointed to report on the first day of the Area Convention and Mrs. Clifford Clancy and Mrs. A. Akins the second

day. Mrs. A. Akins will be the voting delegate. The resolutions to be dealt with at the Area Convention were read and there was a strong recommendation for the resolution dealing with the school holiday on Remembrance Day. This resolution was to

the effect that no school holiday be given that day since so many children never get to activities dealing with Remembrance Day, instead school be continued with school activities for that day to include works dealing with Remembrance Day, approved by the Department of Education.

The roll call, "Rule on Etiquette," was exceptionally well responded to. Mrs. Clifford Clancy gave the current events. Mrs. Lindsay Pollock gave the motto, "The things a woman can make the most out of nothing, a hat, a salad and a quarrel." Mrs. Pollock gave descriptive examples of some of these, also demonstrated some of the hats.

Mrs. K. Tompkins gave a solo entitled, "One Has My Heart," with guitar accompaniment. Mrs. Ted Pollock gave an item of Ethel Chapman's entitled "Baking." Mrs. Gerald Clancy favoured with a piano solo. Mrs. A. Akins read "October," by Edgar A. Guest. Mrs. Jim Pollock sang "Keep Christ's Name In Christmas," a song composed by the guest speaker.

Mrs. Clifford Clancy introduced the guest speaker, Mrs. Angus Mumby, of Moira. Mrs. Mumby has various hobbies, including composing songs, making articles from foam rubber and designing with seeds. She showed several pictures with the designs all of seeds. The outlines giving frame effect were usually split peach pits.

The designs were completely of one type of seeds. Examples were a picture made of garden seeds, another grain and grass seeds, another of seeds from trees. Mrs. Mumby in each design always tries to put a key from the maple, it being our National Emblem. She also had necklaces and brooches designed with seeds.

Mrs. Mumby also demonstrated ornaments and containers made from crude shapes of wood, then varnished. These were beautiful. No one could think of there being so much beauty in these crude pieces until they are as one might say, tuned up. These demonstrations proved very inspiring to the on-lookers as one realized how much can be done with so little.

Mrs. Carl Clancy thanked Mrs. Mumby for showing her display and giving detailed descriptions of each. Mrs. Clancy presented Mrs. Mumby with a gift to which she graciously replied.

Mrs. Douglas Clancy conducted a soap contest which proved most interesting as it dealt with old soaps, some not being on the market for perhaps ten or even 20 years.

Mrs. Gerald Clancy thanked everyone taking part in the programme. She especially thanked the hostess, Mrs. J. Pollock, who also had prepared the programme and procured the guest speaker, she being the convenor for Home Economics and Health.

A New World of Worth from Chevrolet

New Impala Sport Sedan—fresh-shaped elegance with Body by Fisher craftsmanship.

Jaunty new beauty with a road-gentling ride! JET-SMOOTH '62 CHEVROLET

In came the new '62 Chevrolet—and out went the days when you had to plunk down a big bundle to ride around feeling like a king.

Look at that fresh styling—clean, graceful, tasteful, isn't it? Imagine opening one of those big solid doors, slipping in, sinking down in those sofa-wide seats and taking in the rich new decor. Now, you switch on your engine—a fuel-shy 135-hp. Six or your choice of new V8 vigor up to an optional-at-extra-cost 409-hp. whirlwind—and go, man, go.

Isn't that Jet-smooth ride something, though? At each wheel a big steely coil spring turning the road into cream

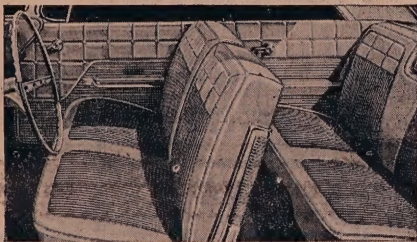

and over 700 sound and vibration insulators turning the car into one big quiet zone.

Ahead of you are front fenders with steel underskirts that give extra protection against rust, slush and stones (what won't our engineers come up with next!). Behind you there's that goods-gobbling deep-well trunk. And, in between, you'll find one fine car feature after another, along with Body by Fisher quality.

Really, about the only thing the new Jet-smooth '62 Chevrolet leaves to be desired is—a prompt powwow with your Chevrolet dealer. *Whitewall Tires Optional at Extra Cost*

And inside—beautiful new ways to bolster your pride!

The Impala Sport Coupe interior, at right, shows just a sample of how Chevrolet makes you more than pleased and proud of your exciting new '62 car. Deep soft seats. Thick deep-twist carpeting. Plush new upholstery in a host of new color combinations. And, of course, you're surrounded by the unmistakable, and unbeatable craftsmanship of Body by Fisher. Cooking Comments

Vitamin C, which is contained in varying amounts in most vegetables and fruits, is unstable to heat and air. Therefore, the maximum amount of this vitamin is obtained from food sources such as cabbage, turnip, and cauliflower when these vegetables are served raw and as soon after preparation as possible, advises the Food and Nutrition Department of Macdonald Institute, Guelph.

In making gelatin dishes, the aim is to obtain a product that will hold

its shape but be tender and not too firm at serving temperature. When cut with a spoon, the mold should offer little resistance and quiver "like a bowlful of jelly."

Vegetables need not always be cooked, even during the winter. In fact, good food rules recommend one serving of raw vegetables per day. Salads can provide nutrients, roughage and variety quite easily during the winter months when many of the other foods consumed are rich and filling, suggests the Food and Nutrition Department of Macdonald Institute, Guelph. Try such combinations as these: Shredded carrots, chopped apples, seedless raisins and lemon juice. These may be served with a favourite salad dressing or combined in a basic gelatin base.

Attend Sectional Rallies of Women's Missionary Society

Mrs. George Carlisle, President of the Woman's Missionary Society of Belleville Presbyterian, and Mrs. Percy MacMullen, Literature Secretary, attended Sectional Rallies at Wellman's United Church, Shannonville United Church and Hazzard's United Church last week. On Monday of this week they were at Cherry Valley; Tuesday, Empey Hill and Wednesday, at Marlbank.

Mrs. Carlisle introduced the guest speaker, Miss Luella Rorke, a retired missionary who resides at Ottawa and who served 30 years in Japan. At the last Rally Miss Connie Wagar, home on furlough from Trinidad, was the speaker.

Mrs. MacMullen gave a resume of the missionary books available and the sales of material was very gratifying.

This is the last of the Sectional Rallies as the W.M.S. organization closes on December 31st of this year.

TIPS

ON MARKETING MORE GRADE A HOGS

Now that the Grade A hog premium has been raised to \$3 and that the premium on Grade B has been discontinued it's even more important to strive for Grade A. Calculated on a 150 lb. Grade A carcass, the difference in net return over a Grade B is the \$3 premium plus \$1.50 higher selling price for a total of \$4.50. Selection of breeding stock is important. Select strains which have consistently graded high. Watch shipping weights. For greatest feed efficiency and maximum Grade A's ship hogs from 185 lbs. to 195 lbs. live weight, depending upon strain and ration fed. Hogs on corn usually dress out about 5 lbs. heavier and should be shipped at lighter weights. Records show that gilts usually grade

better than barrows. This is a factor over which you have little control unless you buy your weaners.

Let us figure out the Purina Program that will bring you the highest hog returns. It will be based on the weight of your hogs and will make use of your own grain, if you have it available, to best advantage.

Stirling Legion No. 228 Plan For Remembrance Day Ceremonies

Public Service at Cenotaph At 10.15 a.m. — Over 30 Wreaths To Be Deposited

At a meeting of the Stirling Legion Tuesday night, final plans were made for the observance of Remembrance Day on Saturday, November 11th.

The following units will assemble at the Community Hall at 9.45 a.m.: Girl Guides, Brownies, Stirling-Rawdon Junior Band, Boy Scouts and Cubs and the Legion members and all veterans and service men. The parade will form at 10.00 a.m. and move off at 10.05 a.m. Dress: berets and medals. Colours will be carried.

The service at the Cenotaph will begin at 10.15 a.m. Representatives of Council, fraternal groups, I.O.G.E., Rotary and next of kin will proceed independently to their positions at the Cenotaph. It is expected that a large number of wreaths will be laid and provision will be made for those designated for this part of the ceremony. Those desiring to lay wreaths are asked to contact Cde. R. D. Patterson.

In order that as many people as possible will be able to participate in the service the Legion public address system will be used.

Immediately following the dismissal of Legion members, together with representatives of Rawdon Council will proceed to the Memorial at Harold and hold a brief service in honour of those whose names are inscribed there, during which time wreaths will be laid.

It is hoped that the community and district will attend as never before at the service of remembrance of our fallen comrades and honour their sacrifice. "They served till death — why not me?"

Mount Pleasant United Church Celebrates 90th Anniversary

Rev. E. A. Milley, B.A., D.D., Madoc, Guest Minister — Large Congregations

(By Mrs. Percy MacMullen)

The 90th anniversary of Mt. Pleasant United Church was held Sunday, November 5th with the Church filled to capacity and an overflow crowd in the basement.

The edifice was a bower of beauty with the two memorial pedestals and several baskets filled with a profusion of variegated mums. A container of white mums was placed on the altar in loving memory of Mrs. Ross Hoard by her husband and family.

Mrs. Mack Sharp officiated at the console of the organ and chose as a prelude Wilson's "Chapel in the Mountains"; for the offertory "The Wayward Chapel" and postlude, "Awakening Chorus."

Rev. R. A. Milley, B.A., D.D., of Madoc, based his message on Matthew 5, verse 13: "Ye are the salt of the earth." In his challenging message he stressed that every Christian Church member should be missionary minded.

The congregational hymns were "O Worship the King," "O Master Let Me Walk with Thee" and "Jesus Calls Us." Mrs. Carleton Potts directed the music and the full choir rendered "The Mercies of the Lord," by Holton. The teen-age ensemble sang "How Great Thou Art."

Evening Service

Rev. W. G. Fletcher was in charge of the evening session. Rev. Milley spoke on the Bible text found in John "What other alternative?" Simon Peter answered Jesus and said we believe.

Mrs. Kenneth Weaver was organist and rendered as prelude "The Lord Is My Shepherd"; for offertory "Bless This House"; postlude "Now on Land and Sea." Misses Judy Conroy and Mary Ellen David sang "The Day Thou Gavest." The full choir contributed an anthem, "Father Keep Us In Thy Care," by Sullivan-Hodges. The congregational hymns were "Stand Up and Bless the Lord," "O Lord and Master" and "O Lord of Life." The offering for the two services

H. C. Bird's Supermarket Officially Opened This [Thursday] Morning

This (Thursday) morning saw the culmination of many weeks' planning and work with the official opening of H. C. Bird's I.G.A. Supermarket.

The story of Stirling's new supermarket dates back some seventeen years, when Mr. Bird, who was employed as a bookkeeper with the Ontario Hydro Commission in Belleville, purchased the grocery store of the late N. E. Eggleton and moved to this Village. Under his able management and hard work the business prospered and on three occasions he has expanded the premises to meet the growing demands of his customers.

In June last he purchased the adjoining Hermitston Block and immediately began planning the extension of his store to provide 3000 feet of modern shopping area. In addition, backrooms and basement provide the necessary storage space. Riverside Construction were given the general contract for the alterations and today Mr. Bird is the proud owner of one of the most modern shopping centres in the area.

Unfortunately he will be unable to be present for the official opening since he is a patient in the Belleville General Hospital recovering from an illness. His elder son, Allan, is supervising the store until he returns to the job at about Christmas time.

A goodly number of customers were on hand for the opening at 10 a.m. today and to take advantage of the many special prices and prizes offered.

The new Bird IGA Supermarket will offer modern shopping facilities to residents of Stirling and district. Meat and produce departments have been greatly expanded, and a wide range of non-food products will be offered. Frozen foods will also be stocked in much greater variety. A modern new store front will be erected to connect the two former units into one smart market.

Several Break-ins Tuesday Night

Thieves were active in the Village on Tuesday night, when seven local business places were entered, including Livesey's Red and White Store, Farrell's Barber Shop, Majestic Cleaners, Anderson's Pool Room, Stirling News-Argus, Stirling Dairy and Stirling Motors.

Articles stolen include a radio and a small sum of money from Farrell's; some wearing apparel from the Cleaners; smokes and some change from the Pool Room; electric drill from the News-Argus; quite a large sum of money from the Dairy; and a small amount of change from Stirling Motors. In the office of the latter firm a small safe was smashed and papers and records scattered.

Chief D. Ketcheson and O.P.P. from Belleville are investigating the robberies.

Plan Christmas Shopping Hours

Business Men Hold Meeting Tuesday Night — Further Discussion November 21st

A meeting of the Stirling merchants was held on Tuesday night to discuss store hours, the Christmas lighting contest and Santa's annual visit. The store hours for the Christmas season were fixed and will be announced at a later date.

The Christmas lighting contest and how to help Santa were discussed but left in abeyance pending a further meeting on November 21st when, it is hoped, a better attendance can be expected. Otherwise these latter items may be dispensed with due to lack of assistance.

Considerable discussion took place as regards the advisability of obtaining the theatre and a suitable projector for the purpose of showing free movies of perhaps two-hour duration for the children on the afternoons of December 9th, 16th and 23rd. It is expected that Santa will make his annual visit on one of these dates with his usual supply of Christmas treats for the kiddies. It would be interesting to hear further comment on this.

Please circle November 21st at 8 p.m. on the calendar and come to the Council Chambers for a full discussion on these matters.

Mrs. Roy Bush
Writes History of
Corner Block

All good-willed citizens are happy to see their town prospering and progressing. At this time many of these citizens of Stirling join in congratulations to Mr. and Mrs. Harold Bird and family in accomplishing their achievement of expanding their IGA Food Market into a larger and more convenient shopping centre.

Stirling citizens have always showed personal pride and interest in its shopping services and with this opening have a super market worthy of a town much larger in size. There will be easy access for the village and surrounding rural district of which Stirling is the hub — all roads lead to Stirling.

Every time we see a new or modern adjustments — our mind and conversations travel back in grati-

tude to those who so capably and sacrificially paved the way with progress in mind down through the years. Stirling is among the oldest settlements in Ontario. This particular building has stood for progress and has remained the centre of the business section from the time of the earliest settlements. Since so many of the years has seen a drug store here, it has often been referred to as "The Drug Store Corner."

It is generally accepted that Dr. Robert Parker originally built this building. This was erected beside the block originally known as the "Judd Block," built by other pioneer settlers and included a store and the village's first Post Office. A 1879-80 Hastings County Directory states under the advertisement of the first Stirling News-Argus (John H. Thompson, Editor and Proprietor) that the location is first door north of Dr. Parker's Drug Store. Also near this vicinity was the first bank, the private Parker Bank. As other stores originated and charter banks moved in close by the corner building, now of interest, continued to be popular, being in the centre of all this activity.

Robert Parker, one of the early citizens, being a son of the first settlers, graduated from Queen's with the first medical class. He opened an office and drug store on this corner. As was quite customary the only early drug stores were in connection

with doctors' offices and practices. This was one of the first drug stores in Stirling. At the time of the "Big Fire" in Stirling in 1883 this was burned. Dr. Parker rebuilt this present substantial building which has been changed from time to time in order to accommodate the various stores, offices and activities as need arose and businesses changed hands.

When Dr. Parker died his son, Charles Parker, a druggist, carried on. Next in turn followed J. S. Morton around 1906. Later he was assisted by his brother, Ernest Morton, who died in 1925. After J. S. Morton's death the drug store passed to Mr. R. Hermiston and then to our present Mr. G. Noble.

Several other changes took place in the building from time to time too numerous to mention here. One time Mr. and Mrs. Fred McKee had a store here, later a restaurant. This was also run for a short time by Mr. and Mrs. Jack Sager.

If we could take a peek at a drug store nearly 100 years ago, we would appreciate our ease of packaging, storing and selling articles pertaining to a drug store. There is also a great difference in the number of drugs, patent medicines and how they are administered.

This corner has always been of interest to children, not alone for candy and gum but was the main supply down through the years for school books, slates and slate pencils and scribbles when they were not so plentiful as now. Older residents remember being interested especially in reading books for children before there was a library, and having teeth pulled here by a doctor or dentist. At first there was no street lights or sidewalks. There was no electricity or water systems as we know them today, so lighting for display and attraction was a personal achievement.

One time Dr. Parker went to Florida. On returning he set up a water tank in front of the dispensary counter in the centre of the store, complete with two small live alligators, with a floral setting and lighting and spray of water making a fountain which was quite up to date at that time. We might note paints and varnishes, glasses, coal oil and turpentine were large drug store sellers and at one time it was nearly the only place you could buy gasoline.

Now this building has not only been renovated into one large room again, but has been joined to the present food store making this shopping centre opening possible in 1961. Mr. Bird engaged Riverside Construction, Jack Bush, proprietor, to make the large changes necessary. We hope the people of Stirling will continue to make interesting history for our younger generations.

Because of erosion of rock, Niagara Falls is estimated to have receded seven miles upriver over the past 25,000 years.

Energetic Bowling

On October 27th Verna Woodbeck bowled the high single of 232 and the high triple of 605. Other good scores that day were bowled by Naomi Eggleton with a 228 game and Lulu Harlow with a 200 game.

On November 5th Hilda Rose held the high single with 314. The high triple went to Marjory Potts, 610. Other good games were Verna Woodbeck 222, Marjory Potts 217 and Lenora West 203 and 213.

Don't have a one-track mind. Especially, says the Ontario Safety League, when you are waiting for a slow freight train to clear the crossing. Remember that an express may be coming down the other track.

Provincial Police have been investigating some of the vandalism done here on Halloween night and the night before. Clearly it is the work of morons. No sensible person would do such things. Chairs were taken from the Gospel Hall on two different occasions and parts of Ralph Heath's milking machines were taken and scattered over the countryside. One milker lid was thrown through a window at the Gospel Hall. The gate off the cemetery at Rylstone Church was taken off and thrown in a pond on a nearby farm. River Valley W.I.

On Thursday, November 2nd, sixteen ladies gathered at River Valley School House and were transported in three cars to Belleville. The chauffeurs were Mrs. Gerald Brooks, Mrs. Roy Irven and Mrs. Roy Tucker.

The group enjoyed a conducted tour of the new County Building. They viewed the Court Room, photos in the Hall of Fame, the Library and the various rooms. There was much to see and the hour sped by swiftly. Warden Harleigh Hamilton and Clerk Treasurer Erle Denyes extended a welcome along with staff members

who conducted the tour.

The group then journeyed to the home of Mrs. Ernest Carr, River Valley, for their November meeting with seventeen members and two visitors in attendance.

Mrs. Kenneth Myers opened with the Institute Ode and the Mary Stewart Collect. Mrs. George Heasman gave a full report of the recent executive meeting and the finances to date. It was reported that no leader was available for the Senior Training Course, "143 Pounds of Meat."

Mrs. Glenn Bush distributed the fall issue of Home and Country.

The vote by ballot showed a large majority in favour of the F.W.O. project "Foster Parent Plan" to adopt a child at a cost of \$60.00 per year for a two year period. The two visitors, Mrs. G. Chevis and Mrs. C. O'Brien, were scrutineers for the balloting.

Correspondence included thank-you letters and a list of Area resolutions. A letter was read from Ostrander W.I. re a crocheted pattern for an Institute crest. This was purchased by one of the members.

Plans were completed for the pie social and the ladies prizes for the November card party were donated by Mrs. A. Wilhelm and Mrs. John Kane.

Mrs. Roy Tucker passed the Pennies for Friendship jar and reported \$1.55 for October.

A letter was read re ordering a cook book and this was left over till

next month.

Some discussion took place re the Coupon Fund. Delegates were appointed to attend the Trent Valley Area Convention at Club Canara, Belleville, as follows: Tuesday, November 14th — delegate, Mrs. Ralph Utman; alternates, Mrs. Ernest Carr and Mrs. Vernon Harry. Wednesday, November 15th — delegates, Mrs. Percy MacMullen; alternates, Mrs. George Heasman and Mrs. Roy Irven.

Roll call was answered with "Name a county Council member." Each member was asked to contribute 20c as their gift to members of the Link Institute in England.

Mrs. Percy MacMullen, Friendship Link Secretary, has shipped the Christmas parcel of individual gifts to members of Abbot's Leigh W.I. in Bristol, England. She gave an outline of their "Autumn Session" which was annual member's night. She also displayed a coloured letter card which contained six views of "Lands End" in England and distributed some newspapers.

For Public Relations, Mrs. MacMullen represented River Valley W.I. in the Eaton tent at the Plowing Match, Belleville, when the awards were given for Farm Improvement. She has also sent her personal entry for the A.C.W.W. competition "Pennies for Friendship" and remitted ten dollars and her story to A.C.W.W. head office. She also announced that a new Institute was being organized

next week at Centenary.

Mrs. Percy Craighead gathered the collection.

Mrs. Albert Wilhelm, at Rainbow Fishong Lodge, will be hostess for the Christmas meeting on December 7th. Each member is asked for a 50c donation for a worthy cause. The conveners are Mrs. Philip Conley and Mrs. Alex Bush.

Mrs. Roy Bush voiced thanks to the hostess, the lunch conveners, those who provided cars for the trip to Belleville and all others who had contributed to the success of the afternoon.

The meeting closed with the singing of the National Anthem, after which the lunch conveners served cookies and cheese and all enjoyed a social half hour.

"Taking Time"

(By Rev. Bob Donnan)

Have you taken time to pray today? It is so easy to let the time slip by and just neglect the most important duty of the day. We must find time to pray, because it will never be handed to us on a golden platter. Pause just now, and whisper a prayer; the day will seem brighter, the burdens will seem lighter if only you pray today.

The time you spend in prayer is never wasted. Might I say it is the most noble act that one can do. One is never so noble before God as when he is on his knees.

What will your children remember you by? Your children will have memories of you after you have passed from the scenes of this life. I trust the memory that they will cherish in their hearts, will be the times when they saw you on your knees before God. Friend, that memory will mean more to their lives than all the money, houses and land that you leave them. Be careful of the example that you set. Your children will follow in your footsteps.

A little boy once asked his daddy to put him to bed. The father was not living a life to be proud of. Many nights the little boy would see him under the influence of alcohol. He loved his daddy and as he said his prayers, he closed in saying,

"make me like my daddy." The father tucked his little boy in, turned out the light, but he could not leave the room. His heart was troubled, finally, he humbled himself before God, confessed he was a great sinner, then he prayed, "Jesus make me like my little boy." Some children never see their father and mother pray. Maybe this is the reason why juvenile delinquency is such a problem today.

There is great power in prayer. Someone has said, "more things are wrought by prayer than this world ever dreamed of." Satan trembles when he sees the weakest saint on his knees. The Bible says: "God is able to do exceeding, abundantly above all that we could ask or think." Elijah prayed and it didn't rain for three years. He prayed again and it rained. In the Second World War, Sir Winston Churchill called the people to a day of prayer. God saved England from the invasion of the German forces. Abraham Lincoln called the people to a day of fasting and prayer during the Great Civil War. God heard their prayers and a peace treaty was signed. I believe that if the free world would forget about testing bombs and go to prayer, our nation would be saved. God can handle Russia; let us put our trust in Him.

Have you discovered the great secret of prayer? Has God answered your prayers? Has prayer changed circumstances in your home? Someone has said "Prayer changes things." Truer words were never spoken. Prayer will change your life. It will change your home. Yes, prayer will change our nation.

President Eisenhower in his inaugural speech quoted II Chronicles 7: 14, "If my people which are called by my name shall humble themselves, and pray and seek my face and turn from their wicked ways; then will I hear from Heaven, and will forgive their sin, and will heal their land." This is the answer to this troubled world. Friend, humble yourself before God; He will hear your prayer. In closing, I leave the words of this hymn with you —

What a Friend we have in Jesus
All our sins and griefs to bear:
What a privilege to carry
Everything to God in prayer.

CANADIAN CHEDDAR

Native and good, Canadian Cheddar cheese, made from the milk of cows, has the happy gift of enhancing the flavour of other foods. Grated and folded into omelets and scrambled eggs; sprinkled over soups and scalloped dishes; added to quick breads; crumbled into salads; melted into sauces, souffles and fondues; sliced for snacks and sandwiches; used as the last touch to dinner — wherever and whatever — it makes any dish the better for it.

Canadian Cheddar is top quality cheese usually grading Canada First Grade. It is available in its natural deep rich cream color or it may be colored yellow with edible vegetable colorings. It is sold in retail stores according to its age or degree of ripeness as "mild", "medium" or "old". "Medium" cheddar is aged for several months, "old" cheddar for a year or more; this care and storing during aging puts the price of "medium" and "old" cheddar above that of "mild" but for those who like a tang to their cheese it is worth it. Made into large rounds, Canadian Cheddar is sold out into wedges of various weights.

Anyone who likes cheese will want to try this special recipe for Cheesse Souffle tested for you by the Consumer Section in Ottawa. The secret of serving it with its "top hat" still on, is to have diners seated and waiting at the table.

Cheese Souffle.

- 3 tablespoons butter
- 4 tablespoons flour
- ½ teaspoon salt
- Few grains pepper
- 1 cup milk
- 1½ cups grated Cheddar cheese (½ pound)
- 4 egg yolks, beaten slightly
- 4 egg whites

In a saucepan melt butter then remove from heat. Add flour, salt and pepper, and blend well. Gradually

add milk, combining thoroughly. Return to heat and cook until thickened, stirring constantly, about 5 minutes. Add cheese and heat until melted, stirring constantly. Remove from heat. Stir a little of the hot mixture into the beaten egg yolks then add gradually to hot mixture. Allow to cool slightly. Meanwhile beat egg whites until stiff but not dry. Fold cooked mixture into egg whites, then turn into an ungreased 6-cup casserole. With a dessert spoon trace a groove around casserole 1 inch from edge and 2 inches deep which, when soufflé is baked, forms a "top hat." Bake in slow oven (325 degs. F.) until golden brown, 55 to 60 minutes. Or set in a pan of hot water and oven-coach in a moderate oven (350 degs. F.) about 1 hour. Serve immediately. Six servings.

Vegetables with their bland flavor go blissfully with the sharp tang of this Cheddar Cheese Sauce tested and recommended by the home economists of the Consumer Section, Canada Department of Agriculture.

Cheddar Cheese Sauce

- (for 6 servings)
 - 2 tablespoons butter
 - 2 tablespoons flour
 - ½ to ¾ teaspoon salt
 - ¼ teaspoon paprika
 - ½ teaspoon dry mustard (optional)
 - Few grains cayenne
 - 1½ cups milk
 - ¾ to 1 cup grated Cheddar cheese
- Melt butter in top of double boiler, then blend in flour and seasonings. Gradually add milk, stirring until blended. Cook over direct heat, stirring constantly until mixture begins to thicken. Then place over hot water and continue cooking for 5 minutes, stirring occasionally. Add cheese and stir until melted. Serve over drained cooked vegetables. Makes about 1½ cups sauce.

Forest fires threaten the prosperity of all Canadians.

Timely Tips

Don't forget to clean the fertilizer out of your grain drill before freeze-up, warn engineers with the Ontario Department of Agriculture. Fertilizer draws moisture (and this means rust) to unprotected metal surfaces.

Check stanchions, pens and doors to make sure they are in good repair before you start stabling cows. Clean all windows and have the stable whitewashed. Remember, good light and adequate equipment can help you avoid an accident.

Now, while the hay mows are high, is the time to check for broken light bulbs and fixtures, suggests Hal Wright, Farm Safety Specialist with the Ontario Department of Agriculture. It might pay to install mason jar type fixtures to reduce the fire hazard.

Late frost and warm mid-October weather caused excessive drying of silage corn this year, says Geo. Jones, A.O.C. corn researcher. When corn goes into the silo extra dry, there is a good chance it will spoil. To prevent this, Jones suggests chopping dry corn shorter (4" or less).

Entered Into Rest

MRS. ROBERT EATON

In failing health for the past year, Mrs. Annie May Eaton, of R.R. 2, Stirling, died Thursday, November 2nd, 1961, in Belleville General Hospital. She was in her 71st year.

She is survived by her husband, Robert Eaton; three sons, Edward, of Trenton; John, of Stirling, and Everett, of Marmora; and two daughters, Mrs. James (Hazel) Cullins, of Port Carling, and Mrs. Allan (Shurlene) Mance Kilvil, of Brooklin, Ont.

Also surviving are seven grandchildren; two sisters, Mrs. Mary Holmes, of Peterborough, and Mrs. Harold (Ella) Cory, of White River, and three brothers, Will Groves, of Wilstead; John Groves, Trenton, and Delbert Groves, Oshawa.

The funeral was held on Saturday afternoon, November 4th at her late residence, Stirling R.R. 2.

The pallbearers were Messrs. Ted Barnard, Ernest Reid, Gordon Mitta, Clifford Heath, Raeburn Wood and Hamilton Donnan.

TIPS

ON HOW
DRY COW CONDITION
PAYS

The 60 days before calving is the important part of the gestation period because that's when ¾ of the calf develops. A good Purina body-building ration helps build the body of the embryo calf... and it also builds the cow's own body so that she will give more milk after calving... and have a longer milking life.

34 old cows at Purina's Research Farm have proved that it pays to Purina condition your cows. Each went through a 60-day dry period before every calving, and each was conditioned on a Purina bodybuilding ration. Each cow produced over 100,000 pounds of milk in her lifetime. Prove to yourself that Purina cow conditioning pays off! Feed Purina D & F Chow at a rate of 1 lb. of feed for every hundred lbs. body weight. Feed this from 60 days before freshen-

ing until 30 days after freshening. If you have your own grain, mix Purina D & F Special 50-50 with oats or barley (and feed at the same rate as above).

Why not give me a call today, or drop in at our Store with the Checkerboard Sign—we'd like to tell you how Purina's Dry Cow Program can help you to strong, healthy calves, good cow condition and a long life of heavy production.

Rev. Fred Joblin Accepts Port Credit Call

Reverend Fred H. Joblin, B.A., B.D., has accepted a call to First United Church, Port Credit, effective July 1st, 1962, replacing Reverend T. V. Hart.

As senior minister at Westboro United Church, Ottawa, for the past six years, Mr. Joblin has rendered outstanding leadership and pastoral service to his church and community. During this period the total church membership has increased by 25 per cent to a current position of more than 2,000 members, the largest of 27 United Churches in Ottawa. Due to major expansion programmes carried out during his tenure, the value of Westboro Church property has more than doubled. At the same time, the annual church budget has increased by 50 per cent with this dynamic growth.

After spending his early days at Stirling, Ont., Mr. Joblin graduated from Victoria and Emmanuel Colleges in 1940 with first class honours in theology, having served on mission fields in Algoma and Saskatchewan during his college years. He immediately accepted a call as assistant minister to Dr. Stanley Russell at Deer Park United in Toronto. Shortly afterwards, he succeeded Denton Massey as the leader of the famous York Bible Class.

From 1942 to 1945, Mr. Joblin served in the Army Chaplain's Corp in Canada and overseas. Upon discharge, Manor Road United Church called him and in 1949 he moved to Streetsville United Church. In 1951, Mr. Joblin moved to Wesley United Church, in London, Ontario, where he served most capably until his call to Ottawa in 1955.

His family background is most interesting indeed. He is the son of the Reverend F. G. Joblin, now retired and living in Port Perry, Ont. Reverend Kingsley Joblin, his brother, is Professor of Religious Knowledge at Victoria College where he has served for the past 16 years. His other brother, Reverend Elgie Joblin, is Associate Secretary, Board of Home Missions, United Church of Canada. Two sisters, Mrs. Dorothy Westney and Gladys Joblin, of Pickering and Port Perry, respectively, are also very active church and community workers.

Mrs. Fred Joblin is the former Audrey Gornall, daughter of the Rev. Dr. and Mrs. Herbert Gornall, of the Maritime provinces. Mr. and Mrs. Joblin have three teenage boys, Douglas 17, Fred Jr. 15, John 12 and a daughter Ann, age 10.

When time permits, Mr. Joblin likes to curl, play golf and relax with his family at their summer cottage.

Hunting Safety

The Ontario Safety League states that proper gun handling is the real key to hunting safety. Observe just three primary rules and most hunting tragedies will be eliminated:

1. Treat every gun as if it were loaded until you have personally inspected it and know it is not.
2. Always point the muzzle of your gun in a safe direction — never at any person or any game unless you intend to kill it.
3. Be sure of your target. Never shoot at a sound, a patch of colour, or any object until you know without doubt, it is the same you are hunting. A good rule is — see the com-

plete outline of the game before you pull the trigger.

Be sure — and you won't be sorry. The Ontario Safety League urges all hunters to familiarize themselves with the game laws of the area in which they hunt. If possible know and work with the local game warden — he will be pleased to co-operate. Learn the laws and observe them — they are your laws — intended to make hunting a safer and more enjoyable sport.

THE BIBLE TODAY

Mr. H. van der Veen, a linguist and translator of the Netherlands Bible Society, who has worked for many years in Central Celebes, has recently completed a translation of the Bible into Ta'e (South Toradja).

Mr. van der Veen discovered how the telling of Bible stories helped him to establish an exact translation into the Toradja language. Beginning with a paraphrase of a Bible term, a word, or a temporary make-shift rendering, it becomes possible to explain this with a more exact rendering.

Thus at first "Heaven" was called Banua Bulaanna Puang Matua — the golden House of God. In the translation of the Bible this was rendered by the loan-word "suruga" which was little known at the beginning of missionary work but gradually became more accepted.

In the story of the crossing of the Red Sea the idea of the "waters being a wall" to the Israelites was conveyed by the meaning of a wall by a phrase which meant "a sandstone cliff." Later the word "tembo" meaning "brickwork" was used, though little known at first. In the Bible translation "wall" was rendered by rinding tembo — a brick wall.

Another difficulty was in the fact that the Timorese had no knowledge of such animals as lions, bears, camels, donkeys, mules and so on. Illustrations on lantern slides were used and when they saw a picture of a camel, the people gave it two names: "the horse with the crooked back" and "the long legged horse." When it was explained that the camel was used to travel in the desert, a natural feature known to children from school teaching, they thought the best rendering in Timorese to be "the horse of the desert."

Cooking Comments

Use only fresh vegetables and fruits for salads, advises the Ontario Department of Agriculture. Wash them carefully and soak greens in cold water for a short time to crisp them, if necessary. Dry on a towel or by draining.

Cabbage is low in cost and high in food value, according to the Ontario Department of Agriculture. Try cabbage wedges with cheese sauce as a main dish for supper or lunch.

Almost all cuts of lamb are tender and adapted to dry heat methods of cooking. For minimum shrinkage and maximum flavour, cook lamb at a low temperature (325 degs. F.).

Not all flours are the same. They are milled from different types of wheat for different types of baking. Cakes and pastry flours are much better than other kinds for cake making.

Boning and rolling of meat for freezing has many advantages, advises the Ontario Department of Agriculture. It conserves space in the locker and there is less dehydration and oxidation because tight packaging is possible.

UPSMANSHIP

Jones was discovered by Brown trying to shove a horse onto his doorstep.

"Give a hand, old man," he pleaded. Brown, wondering, did so. They pushed the horse into the hall.

"Now just let's get him 'up the stairs." So they pushed and shoved.

"Now into the bathroom," said Jones.

When they had got the horse safely in, Jones closed the door softly.

"Why? Why? Why?" asked Brown. "I'll tell you," said Jones. "I've got a brother-in-law who lives with us and

knows everything. But when he goes up to bathe tomorrow, he'll shout down: 'Hey there's a horse in the bathroom;' and for the first time I'll be able to shout back: 'You're telling me!'"

A Letter To The Editor

Dear Mr. Editor:

I would like a small space in your worthy paper to express my views on Armistice Day Services.

It is a tear-starting sight to see the lines of teen-agers and many more younger, marching in order, depositing their poppies around the Cenotaph. These are our boys and girls who will no doubt be our soldiers and sailors and air-women of tomorrow.

Everything is carried out with pomp and dignity. As usual, Mr. Doug Patterson very graciously seated the next of kin in order and gave them their instructions. The service was all that could be asked for, but one thing was lacking. Five ministers were present taking their parts very reverently, but not one of them gave a hand clasp to the mothers, sisters and wives of the names read. It's a mere act, but it means volumes that someone cares.

"At the setting of the sun
And in the morning
We'll remember them."

Thanking you,
A Soldier's Mother

Win At Royal Winter Fair

Hastings County's Livestock Judging team of Larry Bertrand, of Marmora; Owen Ketcheson, of Moira; and Robert Keene, Madoc, placed 2nd out of 23 teams in the Inter-County Livestock Judging Competition at the 1961 Royal Winter Fair, Toronto. Each contestant was required to judge and give oral reasons on three classes of Dairy cattle, three classes of Beef cattle, three classes of Swine and one class of Sheep.

Larry Bertrand, of Marmora, and members of the Marmora 4-H Club and Tractor Club emerged with the highest score in the competition of 69 contestants from all over Ontario: for this Larry wins the E. A. Summers Memorial Trophy.

The Hastings trio coached by the Agricultural Representative, Sidney MacDonald, and Assistant Agricultural Representative, Gibson Patterson, also came close to winning the Dairy Trophy presented by the Ontario Veterinary Association.

River Valley W.I. Very Successful Pie Social

On Friday evening, November 10th, River Valley School House was filled to capacity with men, women and children for a pie social and variety concert sponsored by River Valley Women's Institute. The conveners were Mrs. E. C. Hay-Elis and Mrs. Jack Bush and all the members of the Historical Group. John Kane was in charge of the finances at the door.

Glenn Bush was chairman and the children of River Valley School furnished three songs. Humorous selections were read by Mrs. Ernest Carr and Mrs. George Heasman. Mrs. Harry Brown, of Carmel, contributed several novelty musical numbers and she also gave selections on her piano accordion. Miss Linda Ann Morrow sang a Remembrance Day solo with her mother, Mrs. Harry Morrow, as accompanist.

Mrs. Jack Bush conducted two games of merriment for the children and one for the adults. Those participating in the latter were John Kane, Mrs. Roy Bush, Mrs. J. R. Donohoe and Miss Cheryl Utman.

A few visitors from other points were in attendance. At the close the group in charge served abundance of sandwiches, pie and coffee. The event was a great success and the Institute will have approximately \$30.00 clear of expenses.

Burnbrae Ball Banquet

On Friday evening, November 3rd, the players of the Burnbrae Junior and Senior ball teams were the guests of honour at a banquet held in the Sunday School rooms of Burnbrae Church. There were about 150 people present to help the teams celebrate. Both teams were at the top of the

Seymour Softball League at the end of the season. The Junior team has come out on top for two years in a row.

Seated at the head table were Rev. and Mrs. A. E. Toombes, Jack and Mrs. Billen, the coach of the Senior team and their wives and girl friends. The Junior team was seated at a separate head table.

Rev. A. E. Toombes acted as chairman for the evening and called on Art Nelson who thanked Jack Billen for his support and interest in the team. Tom Holmes presented Jack with a fountain pen on behalf of the team.

A sing-song was led by Mrs. Oliver Willis with Sharon Matthews at the piano.

Ralph Erskine, coach of the Junior ball team was called to the floor and Harold Thain read an address to Ralph and Ron Twigg presented him with a wallet on behalf of the Junior team.

Mrs. Doug Hagerman gave a reading, "A Deck of Cards." Mason Twigg showed films, "Arctic Outpost" and "Duel in the Pool," along with some films taken north of Kenora. Rev. Toombes closed the evening with a vote of thanks to those who in any way helped to make the evening a success.

Both teams were presented with sweaters on being the 1961 champions.

St. Mark's W.A.

The November meeting of St. Mark's W.A., Bonarlaw, was held at the home of Mrs. Everett Heath on the 9th at 2 p.m.

The meeting opened by singing the hymn, "Jesus Master Whom I Serve," followed by prayers taken by Rev. Fleming. Mrs. Wellman gave the Prayer Partner prayer. The Bible reading was read by Mrs. Eggett.

Roll call was answered by twelve members, each donating something for the bazaar. The Dorcas Secretary, Mrs. Heath, reported she had received

a letter from Mrs. Godden re gifts for minister and the bazaar.

It was moved and seconded by Mrs. Wellman and Mrs. Tanner that church be held on November 30th, St. Andrew's Day, at 10.30 a.m., followed by a pot luck lunch and quilting. Every one is asked to bring used clothing for the bazaar and Christmas gifts for children from 5 to 7 years.

Marorie Vilneff took up the Extra-Cent-A-Day collection. Mrs. Barlow reported on the Deanery meeting and

stated the Branch was asked for a ten percent increase in the pledge.

Mrs. Barlow also thanked all who so kindly turned out to help paint and clean the church and basement.

The turkey supper was discussed and all were asked to bring a gift for the mystery table. Bills were presented and moved to be paid.

The next portion of the study book on "Working Together in Unity" and "Getting Together" were given by Mrs. Fleming. Rev. Fleming closed

the meeting with prayer.

Mrs. Jones was in charge of the programme which consisted of song readings and a contest, after which a lovely lunch was served by the hostesses.

ARE YOU

LIVING IN HALF

OF YOUR HOUSE?

Plan to Build a "REC" ROOM

Call it play room, family room, games room or rumpus room... every home needs one. It's the active hub of the house, the starting point for all family fun, where living, playing, relaxing or working are all part of the room's activities!

LDA
LUMBER DEALERS ASSOCIATION

Transforming unused basement space into a room for better living can be an easy and pleasant pastime... a profitable one, too! For extra living space adds immensely to the value of a home. Call us now for helpful advice and free plans — you can do it yourself, or we'll do it for you on our "One Responsibility" Plan. Start with "how-to" tips below, more in future ads.

FOR AS LITTLE AS

\$15. Monthly You Can Finish Bonus Space For Full Time Use

START WITH "STA-DRIP"

Once you have your plan, make sure basement walls are moisture resistant. STA-DRIP Masonry Paint holds a wall of water nine feet high without leakage as it decorates porous masonry surfaces in a variety of beautiful colours and white.

FRAMING AND STUDDING

To disguise the "basement" look, use built-out wall technique. If existing wall has a smooth surface, cover it with panelling fastened over 1 x 3 furring strips. On irregular walls, it's best to build a regular stud wall.

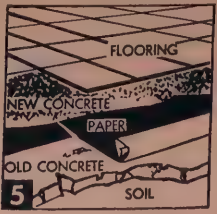

INSTALL PLUMBING

Install heat ducts, wiring and plumbing for an extra wash-room before laying the sub floor, if a sub floor is required. Seal floor drain with concrete, or sewer odors, dampness may drift up, cause damage.

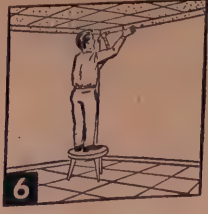

INSTALL PANELLING

Panelling materials vary from unfinished wallboard, taped or battened, to prefinished hard-board plywood sheets. Colour, texture, and final finish are limited only by your own imagination.

INSTALL FLOORING

Need a new floor? You can fur over existing concrete with 2x2's on 16 inch centres. Shims where necessary until they are level. Nail down 3/4" plywood sub-flooring, stagger the joints. Install flooring. Tiles may be laid directly on concrete if present floor is suitable.

INSTALL MOULDING

Use quarter round or any other suitable ceiling moulding to give the periphery of the room a finished look. Watch for more valuable tips on building a rec room in our future advertisements on this series.

Thoughts On**Remembrance Day**

With Remembrance Day on Saturday this is an appropriate time to relate an experience concerning the cemeteries in Europe wherein lie many Canadians.

A few months ago some friends of this writer enjoyed a tour of Europe,

While in France they hoped to see some of the graves of the "boys" who paid the supreme sacrifice. But to their disappointment, this was definitely not a part of the arranged tour. Through persistent demands they persuaded the bus driver to stop at a cemetery, owned by the Canadian government at Calais, France. Though pouring rain these two men, the only ones to get off the bus, stood with bowed heads as they gazed at the seemingly endless rows of crosses amidst beautifully kept grounds.

Why did they do this? What thoughts did they have? I venture to say they may have thought, "Here we are, well fed, clothed, free to worship, speak, vote, travel, choose a particular way of life, because of the ones whose earthly bodies lie in the many cemeteries."

These are not only crosses. Tourists stop to see the historic sights in any country but there is not a story behind each one of these crosses, a story of a family that is part of the life story of each one of us, because our glorious dead made possible the life we enjoy?

As we commemorate the fallen, let us think that the Cenotaph bearing

the names certainly has a story, a vital one, important Canadian history that every child should learn and appreciate.

Mount Pleasant

On Sunday morning the church was decorated in keeping with Remembrance Day. The honour rolls of both World Wars were flanked with memorial chrysanthemums, potted ferns, red poppies and white crosses. Mrs. Herbert Smith arranged the setting, which added beauty and reverence to the service.

Pleasant W.M.S.; also Mrs. Gordon Linn, Mrs. Roy Thrasher, Mrs. Burton Sharpe, Mrs. Garth Joslin, Mrs. John Hay, Mrs. Gertrude Caverly, Mrs. Mac Sharp and Mrs. Ralph Jeffs.

On Sunday morning the Mission Band meeting was held at the Church Hall with thirty-two children and four adults in attendance. The theme was "Life's New Direction in Christ."

The devotional was in charge of Mrs. Herbert Smith. The primary story, "Jaime's Big Question," was given by Miss Diane McAdam. The junior story, "The Feud on the Nile," was given by Mrs. Stanley Williams. Judy McAdam gave the prayer and Janet Scott, gathered the offering.

Piano selections were given by Brenda Williams and Jean Jeffs. Readings were contributed by Glean Spencer, Brenda Campbell and Joyce Jeffs. A vocal selection was rendered by Jean Sharpe.

Time is that expanse of space between paydays.

MacKenzie Feeds Ltd.**TIPS****ON BROOD SOW CARE**

The ration you feed your brood sow during gestation will help decide the size, strength and condition of the litter she'll farrow. Don't try to cheat your brood sow, it can't be done.

In fact, in an effort to maintain her own body, a sow will resorb some of the tiny embryos. In this way you might be losing pigs you never even see because your sow's nutritional requirements are not met. If you don't feed her properly through the gestation period you'll get smaller litters.

Watch your sow's weight and condition carefully. The average sow should gain from 100 to 115 pounds during gestation. Provide plenty of water.

We recommend hand feeding each sow 4 to 6 lbs. per day of Purina Sow Chow Concentrate and grain, mixed

1 to 4, or of Purina Sow Chow Complete. In addition your sow will make good use of high quality, leafy hay if you have it available. Tests at Purina's Research Farm have shown that feeding is even more important than breeding if you want to farrow those big, healthy litters. Give me a call, or drop in. I'd like to tell you about Purina's Hog Feeding Program for baby pigs too!

THE BIBLE TODAY

When the Rev. A. W. Marthinson, Bible Society Secretary in the Congo, visited the Rev. A. Graber, Director of the Congo Protestant Relief Agency in Bakwanga, recently, he was present when an old Congolese Chief called on Mr. Graber. He told how he had lost everything. His wife, who belonged to the Lulus, was "stolen" and his children were taken away. He lost his goats and his sewing machine. Then he said, "I lost my Bible, now I am a refugee here. I own nothing. I can't find my family and I can't start a new family. I have nothing to buy a wife with."

A new copy of the Holy Bible was placed in his hands. His face shone as he took the Book into his hands with loving care. This was to him a most prized and precious possession. Mr. Graber also supplied him with some food and this poor, deprived man went away greatly comforted.

Mr. Marthinson has supplied many copies of the Scriptures in the refugee camps in the Congo and more recently for the Umbundu people who have fled to the Congo from the persecution in Angola.

E. C. Hay-Ellis, Vice-Principal of Stirling-Rawdon District High School, is in Windsor this week attending the first Ontario Conference on Education.

The three-day meeting, sponsored by the Ontario Association of Curriculum Development with 14 other provincial organizations, hopes to come up with a number of far-reaching resolutions.

Do we need religious instruction? When should a second language be taught? How do you stop able students from leaving school? Is the school responsible for sex education?

These are only a few of the questions to be considered by more than 1,000 teachers, school trustees and inspectors, textbook publishers, and others interested in education.

The opening address was made by Premier John Roberts.

Correction

In last week's issue it was erroneously stated that Bob Bell performed the duties of bugler at the Memorial Service. This should have been Bill Bell, his younger brother. We regret that proper credit was not given this talented young musician.

"Light-Up" Contest

Due to the added cost this year it has been decided to assess each merchant \$4.00 as his contribution to the success of this venture.

"Home Interphone" New Service

"Home Interphone," a new communications service with such features as door-answering, hands-free talking and electronic baby-sitting, will be available here by mid-November, according to M. G. Sweeney, Bell Telephone manager for this area.

The system was market-tested by the company during the spring and summer and results indicated a demand for the service.

"Home Interphone" works entirely through standard telephones, including the Princess sets, with separately mounted loudspeakers. Built inside each telephone in the system is a

microphone unit. Door-answering, listening in on a sleeping baby, rounding up the family with the "come and get it" call can be accomplished simply by lifting the nearest telephone receiver in the house.

When a call for one person is answered by another, the person who took the call can "hold" by lifting a small button. By turning another button this person can page the person wanted over the intercom system. The intercom calls can be answered without touching the telephone.

The trouble with the chronic brawler is that he always keeps everything but his word.

Just about everyone knows the difference between right and wrong, only some of us just hate to make decisions.

"The Signs of The Times"

(a sermon by Rev. Bob Donnan)

As we look back over the past two or three years, we realize they have been the most eventful years of history. New nations have come into existence, peace treaties which have been revered for years are now broken; scientists have accomplished feats which seemed to be impossible ten years ago. Governments have been faced with crucial problems. It seems that world affairs are like a giant balloon which is getting ready to disintegrate. Truly this is a critical hour. As I converse with people from all walks of life, I find their hearts are filled with fear. The most discussed topic in the world today it — "Will Russia Attack?" It is true you need to be concerned about world affairs, they are of vital importance to you.

We are living in the last days. Prophecies concerning the last days are being fulfilled before our very own eyes. The Word of God has this to say concerning the land of Palestine: "The desert shall blossom as a rose." This scripture is being fulfilled. If you were to go to Palestine you would see orange trees planted and bearing fruit in the desert. This land was once desolate but now by using irrigation it is blossoming as a rose.

The Word of God declares that He will bring the Jew back to his own land. Each year thousands of Jews are returning to Palestine from every nation in the world. Friends, Scripture is being fulfilled. We see signs of the last days on every hand. Nations are rising against nations, earthquakes, famines, pestilences, fearful sights and great signs in the heavens. Scientists are trying to solve the problems of another planet when they can't look after this one. Our eyes are focused upon Cape Canaveral when they should be focused upon Calvary.

The Word of God says: "And when these things begin to come to pass, then look up, lift up your heads; for your redemption draweth nigh." Friend, Jesus is coming soon. He said He would come and He will. When Jesus was about to leave His disciples. He said: "If I go away I will come again and receive you unto myself." This prophecy has not been fulfilled, as of this time, but as He came the first time in Bethlehem's manger, He will come the second time. His first coming was prophesized 700 years before He came. Man laughs and scoffs today when mention is made of the Second Coming of Christ, but the Word of God says: "The Lord is not slack concerning His promise;" as some men count slackness, but is longsuffering to us, not willing that any should perish, but that all should come to repentance. The Apostle Paul says we are to be comforted as we look for His Second Coming, because where He is we shall be also. This is the hope that we have in this troubled world.

However, we must sound a note of warning. Heaven is a place for a prepared people. The Word of God says: "Prepare to meet thy God." The Word of God also says: "Behold the bridegroom cometh go ye out to meet Him." He is coming to take the Church, His Bride away. Are you

ready to meet Him? Remember, in all your getting get Christ, without Him you are eternally lost forever.

"He's coming soon, He's coming soon, With joy we welcome His returning; It may be morn, it may be night or morn, We know He's coming soon."

Miss Hasell
Special Speaker
At St. John's

Thursday, November 16th, in St. John's Church, Stirling, Miss F. H. Eva Hasell, M.B.E., founder of the Canadian Sunday School Caravan Mission, addressed a meeting of Women's Auxiliary Branches and Guilds on the work of the Caravan Mission.

In 1922 Miss Eva Hasell and Miss Iris Sayle began work in western Canada. With the Blessing of The Most Reverend S. P. Matheson, Archbishop of Rupert's Land, and Primate of All Canada, they travelled across Canada in a van which Miss Hasell gave. Today the work has developed until now there are twenty-nine vans working in thirteen Dioceses in Canada.

Each van is staffed by two women, who, during the summer, receive no salary, only their board. They visit isolated and sparsely populated districts in the Missionary Dioceses of Western and Northern Canada, holding church services where there is no clergyman; seek out unbaptized children; enroll children in the Sunday School by Post; and prepare candidates for Confirmation.

Miss Hasell has directed this work from its beginning. She was awarded the M.B.E. by his late Majesty King George VI in recognition of her work. Queen Elizabeth II and the Queen Mother are interested supporters of their work.

A short devotional service was conducted by the Rector, Rev. F. F. Downing. The Rev. Canon A. S. McConnell, M.B.E., introduced the speaker. At the conclusion of her address Miss Hasell was thanked by Mrs. Lindsay Tanner. The Rev. Geoffrey Rennison pronounced the benediction. Tea was served by the ladies of Stirling and Frankford.

There was a large attendance from Belleville, Bancroft, Madoc, Marmora, Tweed, Rawdon, Frankford and Stirling.

1962 FORD FAIRLANE

The new-sized Ford Car — FAIRLANE — is a completely new car, especially in size and price. It has been deliberately designed to meet more of the needs of Canadian motorists. It is a big car in room, luxury and performance . . . yet it competes with the compacts in price and economy. The new Fairlane and Fairlane 500 are a full foot shorter than normal big cars . . . 16 inches longer than a compact, giving roomy, full-size comfort for six passengers. Solid single-unit construction trims excess weight away and reduces rattles to a minimum. Upholstery and appointments reflect more built-for-people luxury.

Ford carefree features promise service savings mile upon mile. And there's new economy with the Standard Six or optional V-8 engine that beautifully blends thrust with thrift!

Only Ford could bring you a car so fine at a price so low. The Fairlane is priced as low as many compacts, even lower than some! It is probably the most sensible car you can buy today! See, drive and price the new Fairlane or Fairlane 500 at your local Ford Dealer now!

Recent guests of Mr. and Mrs. Blake Sharp and Bert were Mrs. Earl McMaster, Mr. Carman Sararas, of Ivanhoe; Mr. and Mrs. Don Rowe and Mark, Bancroft, and Misses Nancy Rowe and Marilyn Rowe, of Hord's. Mr. and Mrs. Garth Joslin and Lynne spent the week-end holidaying in the United States.

Mr. Bert McCoy, Eldorado, is visiting at the home of Mr. and Mrs. Raymond McConnell.

On Monday evening, November 20th, Mrs. Raymond McConnell, Mrs. Kenneth Weaver, Mrs. Grant Hubble and Mrs. Percy MacMullen attended the Christmas meeting of Stirling Horticultural Society at the home of Mrs. Robert Patterson. The Mount Pleasant group furnished the refresh-

ments and assisted with the program. Mrs. John Morgan and Mrs. Bill Morgan who were unable to attend gave their food contribution.

The first heavy snowfall arrived on Monday, this winter is around the corner and Christmas is almost here.

W.M.S. Bake Sale Proves Successful

Mount Pleasant Woman's Missionary Society had a successful bake sale in Stirling on Saturday afternoon at St. Pierre's store.

The President, several officers and a few friends were on duty to sell the luscious cakes, tarts, pies, etc., as well as the cream, butter and eggs. The net proceeds will be approximately \$35.00 and will further the allocation.

To date the sum of \$209.00 has been given systematically. The allocation for Auxiliary, Mission Band and Baby Band is \$479.40 and it is hoped that this amount can be reached and exceeded with a margin left over for G.E.A., as this is the last year of a W.M.S. organization.

There are five Life Members and fourteen annual paid members for 1961. Mrs. Coulter, Presbyterian Treasurer of the W.M.S., has urged every auxiliary to sponsor something this year in order to reach the allocation as the funds are greatly needed to complete the work and pay all the

Missionaries salaries up to December 31st, 1961.

The President, Mrs. John Mulheron, and her assistants appreciated all the articles contributed by both members and non-members.

Just in passing we would like to state that in 1925 when the late Mrs. George Weaver was president, the W.M.S. remitted to the Presbyterian Treasurer \$475.00 and the Mission Band \$25.00, a total of \$500.00, and there were twenty paid members on the roll at that time.

Perhaps this would be a chance to give a few authentic details to the reading public.

In 1901 the W.M.S. Auxiliary was organized with the first president Mrs. James Williams. In 1911 a Mission Circle was organized and functioned until 1917. In 1911 Florence Montgomery was a charter member and in 1916 a life member of that organization.

In 1922 Mrs. Percy MacMullen joined the auxiliary when Mrs. Thomas McKeown was president. She has been a member and regular attendant ever since and has held nearly every office. She has been the Press Secretary for two newspapers since 1927 and Recording Secretary since 1948.

During the thirty-six years of church union she has served thirty years as an officer of either Presbyterian or

Bay of Quinte Conference Branch. She is now concluding a five-year term as Literature Secretary.

The officers pay for their own meals unless they are assisting on the Sectional Rally programmes, then the Section provides the dinner. The travelling expenses are eight cents per mile for a car to take all officers in that area. Many women do not make any charge for their car, thus the expenses of Belleville Presbyterian has always been at a minimum.

The Literature Secretary does not receive a salary, a bonus, nor a free book or discount. She gives her time and effort to the cause of missions and it is quite unfair for people to spread false rumours about expenses at a time when a new organization is

being instituted. No one except those who work full time at the Toronto office have every been on salary. However, there are hundreds of women all over Canada who have aided the cause of missions in many ways. We are very confident that a large array of younger women will gladly dedicate their efforts to this "New United Church Women's Organization" and they won't expect a salary either. (More Mt. Pleasant news on page 7)

APPLES 1961

It is estimated that apple growers in Canada will have picked nearly 15,000,000 bushels of apples in 1961. That is, about 87,000 bushels more than last year. To date the leading apple producing provinces in order of 1961 estimated production are: Ontario with 34% increase in crop over last year; British Columbia (usually the lead province) has a 16% decrease in apple crop this year; Quebec 20% less than 1960 and Nova Scotia 11% more than a year ago. In short, says the Consumer Section, Canada Department of Agriculture, 1961 is a good apple year and even though a large percentage of the crop goes to commercial processors, or is exported, there will still be a plentiful supply for Canadian homemakers to serve apples often, fresh or cooked.

The first cultivation of apples in Canada was made from seeds taken from their homelands by early French settlers to Nova Scotia. As far as is known, of the varieties cultivated in

those times, only the Fameuse or Snow apple, grown chiefly in Quebec, has become of any commercial importance. Even it has been largely replaced in the orchards by more popular varieties. The Consumer Section, Canada Department of Agriculture, Ottawa, tells us about a few of the many varieties which appear in the stores. There is, for example, the McIntosh apple familiar to almost everyone for it can be grown in all large orchard areas in Canada. It gives off a marvellous aroma at room temperature or in the baking. It is excellent for eating fresh or for the making of pies from now till Spring. Related to the McIntosh but somewhat larger and flatter in shape is the Cortland. It is crisp, mildly tart and a good all purpose apple. Because it does not discolor quickly it is also an ideal salad apple. Cortlands are grown mostly in the St. John River Valley, Quebec and Eastern Ontario.

Perhaps the apple most in demand

for dessert purposes is the five-pointed, long faced, Red Delicious. It, like the Golden Delicious, is grown mainly in the Valleys of British Columbia and Nova Scotia. Both are very eye appealing and excellent for eating fresh. On the other hand, an apple that bakes better than it eats fresh is also produced in B.C. and Nova Scotia. It is the very round, wide open stem ended Rome Beauty. Although not an early-to-market apple it is fairly mild in flavour and, as noted before, cooks well and quickly.

Northern Spy, red striped with a yellow background is a firm, very crisp and medium tart apple. It has a general purpose usefulness and is a popular winter apple in eastern Canada where it is grown.

Apples to eat or apples to cook should be crisp and juicy with an appetizing aroma and delicate flavour. To keep these qualities in the apples you buy, says the Consumer Section, Canada Department of Agriculture, Ottawa, store them in the refrigerator or in a cool, humid room. The amount of cool storage space you have for apples will determine the amount you buy at one time.

OF MANY THINGS

(By Ambrose Hills)

THE MODERN UNION LEADER

The days of the old-fashioned leader who was forever ranting about the "bosses" and the "exploiters of labour" are numbered. A new and far more intelligent type of labour statesman is needed, and one by one they are appearing.

Union leaders in Europe are setting the pace. Instead of fostering strikes and labour-management war, they are working toward mutual efforts to increase productivity. They have recognized that pay increases must be related to increases in productivity or they do damage to both the nation and the workers themselves. As a result, there are very few strikes and most disputes are settled voluntarily between labour and management.

Because of this more modern approach to labor-management problems productivity in Europe is increasing rapidly, and the United States and Canada are going to find it more and more difficult to meet competition. Unions in the United States have not shown much concern for that country's foreign trade position, but have simply aimed at higher and higher pay for less and less work. Canadian union philosophy is tied very closely to that of the United States, but there's evidence that some unions are starting to see things in a different light.

For one thing, Canadian unions are making a sincere and, I think, effective effort to keep communists from infiltrating them and gaining positions of power. Communists are not interested in labour peace. Their entire efforts are bent toward creating labour war — and thus they keep alive the old clichés about the "bosses" and the "capitalists."

Surely in the light of our own dependence on foreign trade, some reasonable working agreement between labour and management can be arrived at. After all, they both want more production and employment and the consumer wants a better deal. With such common goals there should not be too much friction.

The old-fashioned industrialist who was out to "bust the union" has been

dead a long time if, indeed, he ever existed. The old-fashioned union leader who fomented a "hate the bosses" attitude is on the way out, but fast. This country seems on the verge of recognizing the urgent need to increase productivity, lower prices and improve the quality of our merchandise. If it doesn't happen reasonably soon, however, all legitimate hopes for increased prosperity will be dashed.

Give Now -- Save Later

One of the most practical methods by which the eventual impact of estate tax can be lessened is through the making of gifts. Savings can be effected even though in some instances gift tax must be paid.

Recently we assisted one of our clients in establishing a \$40,000 trust fund for the benefit of a grandson. In making the gift at this time he achieved what to him were two important objectives. First, he has made funds available for the use of his grandson at a time when they are most urgently needed in his professional career. Secondly, his potential estate tax liability has been reduced by more than \$5,300 even after paying gift tax of \$5,040. In addition his income tax will be reduced substantially for the remainder of his lifetime.

Canadian tax legislation allows and encourages individuals to make gifts. This was shown again recently when an amendment to the Income Tax Act removed an inequity from legislation concerning once-in-a-lifetime gifts of real estate. The Act in its original form required the donor to exhaust his one-in-a-lifetime exemption of \$10,000 even though the value of the real estate being transferred by gift might be less than \$4,000 (the basic annual gift exemption for all individuals). The amendment allows an individual to elect which exemption he wishes to use. By electing to use his annual gift exemption, an individual can preserve his once-in-a-lifetime exemption for an occasion when it will be of greater benefit.

In a number of Bulletins we have urged readers to consider the making of gifts as an integral part of good estate planning. With the end of the year approaching — a time when an individual may take advantage of exemptions for two years — again we urge our readers to review their estate plans to determine how benefits may be obtained through the making of gifts. At the same time we give a word of caution. There are certain intricacies and fine legal points to be considered and competent advice should be obtained before any gift programme is finalized.

What's Your Complacency Quotient?

What's a C.Q.? It could be several things, but here and now it means complacency quotient, more specifically, complacency about tuberculosis.

If you think that tuberculosis is just about beaten because every so often you hear that some sanatorium is being converted to other uses, then, say tuberculosis workers, your complacency quotient is high — at least as far as TB is concerned.

It is quite true that we no longer need as many sanatorium beds as we required a few years ago — but we still need enough for about 9,000 patients in Canada alone, any time of the year.

Most of us didn't know there were that many people left with TB, but there are. A great many of them will get their health back in the next few months. That is good news, but we must not think that will be the end of it. Last year there were 6,285 new cases of tuberculosis in Canada. We hope that when this year's new cases are tallied up there will be fewer but we know it will still run into the thousands.

What we must face is that we have advanced much faster in treatment than we have in prevention. The drugs do not prevent. The vaccine, BCG, undoubtedly gives a measure of protection to thousands but it does not give the sure immunity that one can get against smallpox or whooping cough. So efforts go on constantly to improve BCG.

Even though there are these handicaps, there's still a lot we can do about prevention. The basic principle of prevention is finding cases before they infect others and getting them treated promptly. Never before have we had such good tools for finding the unsuspected (and suspected) cases.

The catch is that these tools are not being used to the full extent. Not by any means. Last year, despite all the opportunities that Canadians have for early diagnosis, more than 20 per cent of the new cases had far advanced

and disease when found. More than 10 per cent had moderately advanced disease. This means that two thirds of the cases found had not taken advantage of the chances offered over the past ten years. How many well persons were infected by these advanced patients before they entered sanatorium is sad to contemplate.

They were not men or women with mean intentions. They were just folk with a high complacency where TB is concerned. "I couldn't have TB" they thought, and so they did not bother with a tuberculin test, they did not attend the mass survey, they did not go to the doctor when members of the

family said "I think you should see the doctor about that cough". Here are facts that should explode complacency, if any. There are still some 6,300 new cases of TB in Canada each year. That is why the Tuberculosis Association asks you to buy Christmas Seals. They want to reduce that number to zero. How fast that happens depends on all of us.

"How did you stop your husband from staying out late at night?" "When he came in late, I called out, 'Is that you Jim?'" "Is that you Jim?" "And how did that stop him?" "Harry is the jealous sort."

TREATING FENCE POSTS PROVES PROFITABLE

An easy home treatment costing 30¢ can double or even triple the life of fence posts. Besides, it will cut your yearly cost of fencing and save the bother of rotted and broken posts.

Jim Card, Ontario Department of Agriculture extension engineer, says a home-cut post, by the time it is cut, peeled, set and tamped in the ground, will have cost about 65¢. This includes the value of wood, labour, and everything. Without treatment, it will last 5 years on the average. This works out to a cost of 13¢ a year. Treatment of the post with a penta (i.e., pentachlorophenol) solution will cost approximately 30¢ and will boost the total cost of the post to \$1.00. But you can now expect it to last 20 years. So the cost is now less than 5¢ per year and you don't have to set new posts every 5 years.

Even if the cost of treatment equalled the cost of a post, it would still be a good investment if the life were more than double, figures the engineer. Since two untreated posts won't outlast one treated post, the preventative is worth the value of an extra post.

He recommends the "cold soak" treatment on a 5 percent penta solution. Soak the posts for 48 hours and the job is done. Use a big tank or 45-gallon oil drum.

Posts to be treated with penta should have been cut and peeled last winter, then loosely piled for drying. They'll be ready for preservation this fall.

R.O.P. RATION MAKES BEST PIG FEED

Agricultural scientists, in their search for better methods of feeding farm animals (methods which eventually benefit Ontario people in all walks of life) are questioning the belief that meat or fish tankage plus grain and a little salt make a good pig feed.

According to the latest results of Ontario Department of Agriculture scientist J. G. Norrish, extra calcium, phosphorus, vitamins, and antibiotics are needed to make a balanced pig feed. A properly supplemented R.O.P. ration appears to do an excellent job. The R.O.P. ration is so named because it is used as a feed in Record of Performance studies with purebred pigs.

Mr. Norrish, who is employed with the Animal Husbandry Department at the Ontario Agricultural College, divided 30 weanling pigs into 5 groups. Each group got a different ration — all oats, all barley, all wheat, all tankage, and all R.O.P. ration. Salt was added to all rations. Enough 50% total protein meat meal was added to make each a 16% total protein ration.

The R.O.P. ration consisted of 5 parts barley, 3 parts oats, 2 parts wheat, and 300 pounds of a 42% protein supplement per ton. Vitamins, antibiotics, and calcium and phos-

phorus were added to the R.O.P. ration.

His observations were little different than expected. The oat-fed pigs did well on carcass grades (83% A's) but the pigs took 28 days longer to finish and required 39 more pounds feed to put on their 100-pound gains. The barley-fed pigs went to market in reasonable time but, like all the others except those on oats, fell drastically in carcass score. Corn-fed pigs were the longest on feed, and wheat-fed pigs had the poorest carcass scores.

REPLACING FUSES CAN BE DANGEROUS

Since the majority of circuits are of number 14 wire, the use of larger than 15 ampere fuses is a definite hazard, warns H. E. Wright, Farm Safety Specialist, Ontario Department of Agriculture.

When a fuse blows, don't replace it with a larger one, he cautions. Instead, decrease the load on that particular circuit and have your electrician install another circuit. If a circuit is overloaded and a large-size fuse is used, the heat generated in the wire may be sufficient to char the insulation and start a fire. Here are some precautions to follow:

— Don't replace fuses while standing on a wet floor unless you first pull the switch.

— Don't handle appliances or cords while in contact with water.

— Don't attempt to make electrical repairs yourself.

The use of electricity on farms has increased tremendously during the past few years. Many wiring installations which were adequate when installed are now overloaded. He suggests employing an electrician familiar with your farm wiring to check your installation. Just as your machinery is checked over and repaired when necessary, so your wiring system should be checked by an electrician every three to five years.

Electricity is perfectly safe if your wiring is properly maintained, stated the safety specialist. Fire and shock hazards occur only because of carelessness, lack of maintenance, or lack of knowledge.

FEED GRAIN PRICES HIGHER THAN LAST YEAR

The high cost of feed grain has caused quite a stir among farmers across the province. Prices have been climbing since early June and now stand about \$4 to \$6 per ton higher than for the same period last year.

Professor D. R. Campbell, head of the Ontario Agricultural College's Agricultural Economics Department, lists low supply and high demand as the reasons.

"We have been eating into our stocks of oats and barley on the prairies for the last 4 or 5 years. And this year it looks as if the crop will only be about 55 to 60 percent the size it was last year," says Professor Campbell. He points out we have more beef cattle, milk cows, hogs, turkeys and broilers than at any other time in our history except 1959. "The demand is up and, of course, the prices are up."

He forecasts continuing high prices though somewhat lower than the highs of August. He expects the Wheat Board policy of allowing imports of oats and barley to hold prices down by possibly \$3 to \$4 per ton.

The economist suggests that farmers use as much of their own grain as possible. "Make arrangements with other farmers to buy their grain before they ship it, or use more corn in your ration."

He expects a good number of people to cut back production during 1962, sees lower prices for most livestock in the next 12 months, and suggests that farmers with hogs aim for the 1962 fall market.

Timely Tips

Here's an idea from the Ontario Department of Agriculture that will help you get out of those icy spots this winter: Carry a 50-pound bag of chick grits in the trunk of your car. The grits are quite cheap (80¢ a bag) and don't freeze as sand frequently does. Grits are easy to clean up if some get spilled in the trunk and because of their sharpness, allow better traction on ice.

If you haven't got around to it yet, clean out the fertilizer from your grain drill. Fertilizer has the power of drawing moisture say Ontario Department of Agriculture engineers,

and this means that rust will form on many of the castings. Some of the moving parts have been known to "seize" and by seeding time next year, they couldn't be moved.

Don't forget to spread straw or manure over the shallow parts in water lines, reminds Professor R. W. Irwin, Ontario Agricultural College engineer. Otherwise they might freeze. Tile lines emptying from septic tanks sometimes freeze where they run under roadways. This might be prevented by covering them with straw.

Cooking Comments

Golden squash is delicious in a variety of ways. Try baking it after sprinkling the buttered, portion-sized wedges with brown sugar, salt, pepper and cinnamon, suggests the Food and Nutrition Department of MacDonald Institute, Guelph. A whole clove stuck into each end of the pieces adds a subtle flavour, too.

This is the time of year to start collecting all shapes and sizes of cones for those winter table centres. Combined with evergreen boughs, the cones may be left in their natural color or may be splashed with paint. Finely cut tinsel from used Christmas cards may be sprinkled on the paint while still damp, adding a touch of sparkle.

Small squash halves are just the right shape for stuffing, reminds the Food and Nutrition Department at MacDonald Institute, Guelph. During the last fifteen minutes of baking, try adding sliced frank or pre-heated sausages to the brown sugar-mixture sprinkled over the halves.

Did you ever try combining left-over fruit juices to make new combinations of your own? Try it. Apple-grapefruit juice, for example, is delightful for breakfast.

TV and Emotional Problems

How is TV affecting children's health? Is it reducing their outdoor activities? Is it producing serious eyestrain and, last but not least, what effect is TV having on our children's emotional and behaviour problems?

According to the Health League of Canada, researches made on children's television by the use of questionnaires in the early 1950's revealed that many parents thought their children's vision was suffering. They also reported that the children slept less, played less and were more nervous and disturbed. In more recent years, however, these complaints are voiced by a very small percentage of parents. Parents are insisting that undue fatigue and eyestrain be avoided by having the TV picture properly focused, that children sit at the right distance and the room is properly lighted. Another important "must" is the encouragement of proper rest periods—away from the TV set.

Opinions differ greatly on the relationship of television to emotional problems and undesirable attitudes and behaviour. In a committee report of the American Medical Association it is stated that "reduction of creative activity and time spent in physical play tends to increase emotional problems among children." In testimonials before a Senate Committee investigating Juvenile Delinquency, it was indicated that a relationship may exist between television and juvenile delinquency. The well-adjusted child may be unaffected by seeing violence and crime on TV, but the less well-adjusted child may be affected seriously. "The opinion was also expressed that repeated exposure to crime and violence may blunt children's sensitivity to human suffering."

This is a most disturbing commentary on TV programming. With increased emphasis being placed on horror and crime movies such as "Twilight Zone," "Way Out," and Boris Karloff's "Thriller" to say nothing of the ubiquitous Westerns with their sagas of legalized murder, brutality and sadism, it may soon become necessary to label these TV programmes "For Adults Only."

The Good Driver

Accident prevention work is not a fast-moving operation, as far as noticeable results are concerned. In fact, safety campaigns seldom have any conclusive result to encourage those who have worked on them.

However, the Ontario Safety League reports a welcome exception. Positive progress is being made in a task that is being undertaken by safety organizations the world over — "selling" the public on seat belts. More and more people are coming to understand that seat belts make good sense, and the manufacture and sale of belts is increasing rapidly. But there is still a long way to go, be-

cause only one automobile in thirty in North America has belts installed.

The public information media are playing a big part in developing public acceptance of belts. The O.S.L. quotes this recent editorial from the Kitchener-Waterloo Record:

"A member of the younger generation tells us that automobile seat belts are not popular with his set because this safety precaution is regarded as 'sissy', 'chicken' etc."

They should tell this to the Royal Canadian Air Force.

From rough and tumble experience, our fighter pilots have learned how seat belts can pull them through tight jams safely.

The common-sense safety of automobile seat belts has also been proved beyond question on our highways.

Accidents can happen when least expected, to drivers and passengers of all ages. There's nothing "sissy" or "chicken" about seat belts minimizing the danger of injury or death in today's traffic."

TIPS

ON HOW TO
SELECT
FOUNDATION COWS

Size: A big cow usually has greater roughage capacity, overall strength and vigor than her smaller sisters. The price you'll get for her after her working days are over will be higher, too!

Feet and Legs: Look for well-rounded feet, straight legs and strong pasterns.

Udders: Look for good-quality udders with strong attachments. Udders that are wider in front and have large front teats are difficult to milk by machine.

Dairy Character: A dairy cow should possess the strength, vigor and ruggedness to finish her lactation in good condition.

Body Capacity: Good spring of rib; a big, capacious barrel; plenty of width between front legs are signs that a cow can handle large quantities of rough-

age. Usually broad-muzzled cows are the best feeders.

Disposition: Try to find a cow that has a sweet, calm, patient disposition.

All Municipal Offices Filled By Acclamation At Nomination Meeting

Only Fair Crowd of Ratepayers In Attendance — Report Year's Activities

All elective municipal offices for the Village of Stirling were filled by acclamation following Nomination proceedings in the Community Hall on Monday night. There was only a fair crowd of ratepayers in attendance to hear the various reports on the municipality's business for the year.

The following were nominated for the various offices:

Reeve — Carl E. Bateman (accl.)
Councillors — B. Jones, J. Chambers, R. Anderson, R. Philip, George Noble and Graham Mouch.

Public School Trustees — Mrs. Robt. Leury, R. D. Cooke, G. C. Mouch and Allan Munro.

Public Utilities Commissioner — R. L. Hatton and Bruce W. Glendinning.

R. Philip declined the nomination as Councillor and Councillor B. Jones retired after serving two years.

G. C. Mouch, who has served on the Public School Board for two years, will fill the vacancy on Council.

Allan Munro, a newcomer to local politics, will replace Mr. Mouch on the School Board.

B. Glendinning withdrew his nomination as Public Utilities Commissioner and R. L. Hatton, the present chairman of the Commission, was returned to office for another two years by acclamation.

W. L. Pollock acted as chairman for the meeting following the closing of nominations.

Reeve Gives Report

Reeve Carl Bateman stated the 1961 Council had been co-operative and energetic and a good year's work had been accomplished. He stated the sewerage project cost approximately \$255,000 but there were several matters holding up final settlement with the Ontario Water Resources Commission. He outlined the fire protection phone service installed at a cost of approximately \$300 per year. A bylaw had been passed establishing the boundaries of the present wrecking yard in town and prohibiting any other yard; the sewerage system had been extended on Elizabeth St. and the construction of storm sewers on Church and Henry Streets completed.

The Reeve also reported on the establishment of a Community Centre on the east side of Henry St., at no cost to the Village because of County, Gov't and Rotary Club grants. New street lights had been installed on Front St. W., sections of sidewalk had been resurfaced and a new vault-chapel was under construction at the local cemetery.

He outlined the action of Council in the establishment of the Rodgers sub-division where two new homes are now under construction and stated he had been assured that several more residences were in the offing. Considerable work had been done by the County on the Development Road on Mill St. and it would be completed next year.

Looking forward, the Reeve said preliminary plans had been approved for the resurfacing of the connecting link on Highway No. 33 from Emily to North Streets and on Highway No. 14 from the Village limits on North Street to the Elaine Footwear factory on Front St. East. The streets concerned would be widened, storm drains installed and new sidewalks constructed. There was also a possibility of a new bridge on Front Street. He expected the work would be completed in 1962, stated the Reeve.

Councillors Heard

Councillor B. Jones, Chairman of Streets, reported briefly on the work done on the streets and gave full credit to F. Broekema and Roy Somerville for a job well done. Robt. Philip and Geo. Noble, who has shared the duties of chairman of the Property Committee, also spoke briefly.

Councillor Robt. Anderson, Chairman of Cemetery, praised the work of caretaker Harold Juby and stated the work at the cemetery would soon compel the engagement of additional help. Councillor Jas. Chambers,

CARL E. BATEMAN who has been returned by acclamation for his second term as Reeve of Stirling

\$100 Cash Prizes For Contest In Christmas Lighting

One hundred dollars in cash will be offered for prizes in the annual exterior lighting contest for the Christmas season according to an announcement by the local Chamber of Commerce. The prize money, which will be donated by the Stirling Public Utilities, will be divided to give seven prizes in the residential section and one in the commercial.

In the residential division first prize will be \$25.00; second, \$15.00; and five prizes of \$10.00 each.

Only one prize, \$10.00, will be awarded in the commercial division. The co-operation of the citizens is invited to make the village attractive in the festive season. Plan now to "light-up" for Christmas.

Chairman of Parks and Finance, stated the beautification and care of the parks had been looked after by the Horticultural Society and they had done a splendid job.

School Board

G. C. Mouch, chairman of the Public School Board, went over the operating costs of the Board for the current year. He stated the school was well staffed and paid tribute to R. W. Meiklejohn, who had retired as Secretary-Treasurer after 40 years' service.

Mr. Mouch, who also is deputy chief of the local Volunteer Fire Department, took advantage of the opportunity to urge those present to become conscious of the ravages of fire, learn the emergency phone number 5-2554 in case of fire, and lend their support to the Fire Department in providing good equipment and personnel.

Mrs. Robt. Leury, a member of the P.S. Board, stated the welfare of the children, school, staff and community, was always uppermost in the deliberations of the Board members. Allan Munro, nominee for a seat on the Board also spoke briefly.

R. L. Hatton, Public Utilities Commissioner, voiced his thanks for the support of his fellow commissioners and Manager throughout the year, which had seen various changes and improvements.

During the year the operation of the sewerage system and the collection of the rates for the service had been assumed by the Commission with no increase in staff. Electrical lines and hydrants had been relocated due to construction work in several instances and some lines had been rebuilt. A new water main was being installed on the Frankford Road and on the Belleville Road. The Commission had also purchased a new service truck with an aerial ladder. He had enjoyed the work and was willing to serve again.

B. W. Glendinning, a nominee for the office, also spoke briefly.

Ex-Reeve J. V. Holt congratulated the various officials for their splendid reports and following a question period the meeting closed with the National Anthem.

R. W. Meiklejohn "Watched" For Years of Service

Fitting tribute to his years of service in the interests of education in this Village was paid R. W. Meiklejohn, Emma St. on Friday evening last, when members of the Public School Board tendered him a testimonial dinner at Havelock Hotel.

Guests in addition to Mr. and Mrs. Meiklejohn, included the members of staff with their husbands, members of the School Board and their wives and husband, Inspector G. Waldrum and Mrs. Waldrum, Tweed, and Reeve C. E. Bateman and Mrs. Bateman.

The guest of honour has served the various Boards of Education and School Boards in the Village for fifty years, the first ten years as a member of the Stirling Board of Education and forty years as the efficient Secretary-Treasurer. He retired in September and was succeeded by R. B. Bell.

Following a delicious dinner the party returned to the home of Mr. and Mrs. R. D. Cooke, Church St. for Court Whisk.

Mr. Ed Warren, on behalf of the Board members, presented Mr. Meiklejohn with a suitably inscribed gold wrist watch, and Mrs. R. B. Bell, on behalf of the members of staff, made the presentation of a smoker stand. Following an appropriate reply by Mr. Meiklejohn, brief addresses were given by Inspector Waldrum and Reeve Bateman.

Dainty refreshments were served to bring an enjoyable evening to a close.

Mr. and Mrs. Ray Poste Observe 25th Wedding Anniversary

Mr. and Mrs. Ray Poste, Mill St., Stirling, were taken completely by surprise on the evening of Sunday, November 26th, when they returned home to find some forty friends and relatives had gathered to help them celebrate their 25th wedding anniversary. The happy occasion was arranged by their daughter, Carol Clements and son Richard Poste, with the indispensable help of their aunt, Mrs. Everett Gowsell, of Belleville.

The best man of twenty-five years ago, Mr. Everett Gowsell, acting as chairman, invited the guests into the pink and white decorated living room. A three-tiered anniversary cake, made by Mrs. Tom Clements and Mrs. Ken Mumby and very prettily decorated by Earl Johnson, centered the white damask-covered table. It was topped with white bells and lily of the valley tied with silver ribbon and mistletoe with the base with white tulle interspersed with pink roses and flanked by white and silver candles in silver holders.

The guests of honour, the former Ivy Mills, of Belleville, and Ray, took their designated seats and then their little grandsons, Ricky and Robby Clements presented them with a lovely corsage of pink roses and white carnations and a boutonniere. A beautiful flower arrangement and a large decorated basket containing many lovely gifts were then brought in. They were also presented with a green swivel rocker occasional chair

OF MANY THINGS

(By Ambrose Hills)
ANNIVERSARY PRESENT

There is a tense atmosphere around our home these days. It is my fault.

I started it all, with the best of intentions. Recently we celebrated our 24th wedding anniversary, and I wanted to give Nora something special for having put up with me for all those

years.

Then I had the hot flash. Nora is an extremely beautiful girl, so why not have her portrait painted, by a first-rate artist, and let that be our anniversary present?

Throwing caution to the winds, I telephoned one of Winnipeg's leading artists, and even before getting the price of the job (I was a bit too shy to start out in such a commercial tone with a real live artist), I had "commissioned" him, as they say, to do the portrait.

Nora was quite thrilled, as I had hoped she would be, but I had overlooked one fact. Ours is a house full of women — four daughters, ranging from ten to seventeen. They are thrilled, too, and the posturing and preening that goes on around our place these days is just too much.

Nora has taken the sittings in her stride, and doesn't seem to have had her head turned too much; but the other four are simply insufferable.

"Daddy, do you think my profile is best from this angle or that angle? Should I hold my chin higher?" It's getting a little annoying to say the least. A fellow can't get near a mirror to tie his cravat! And the other day, when I did get mirror room, I found myself taking a sly estimate of my own profile, mentally painting out

the Adam's apple with which I was too plentifully endowed.

One thing, however, has been accomplished. The kids look at Mom with new respect, realizing something they probably had never even thought of before. She's a real beauty, aside from being a good cook, fine homemaker, and discriminating enough to see the sterling qualities that are hidden somewhere back of that Adam's apple that ruins an otherwise manly profile.

Local 171

Farmer's Union

The November meeting of Local 171 of the Ontario Farmers' Union was held in Springbrook Hall with a good turnout.

Murney Bateman was chairman and opened the meeting with the singing of the Queen.

Several local members attended the Ontario Farm Union Convention in Lindsay recently — Mrs. Jim Spry, George Williams, Wes Finch, Murney Bateman and Morton Reid — and gave reports on the convention. Everyone seemed very impressed with the way things went at the convention. A large number of resolutions were dealt with and many interesting speakers were present. It was

the 10th anniversary of the Union and a banquet was held on the first night. Two members of Local 171 were elected on the Provincial Board of Officers. Wes Finch is the Junior President and Jeanne Williams is the ladies Vice-President.

Guest Speaker

Orno Sharpe was the guest speaker of the evening. He was recently on a trip to the British Isles and Europe. Mr. Sharpe showed slides of England, Scotland, Holland, Belgium and France. They were very nice and were much enjoyed. Orno spoke on farming and marketing in England. He remarked that they farm much more intensively over there. They figure on a man for every 37 acres of land on the average. They have farms up to 1,200 acres in size. The speaker stated that after seeing the British farms and the way they are run he thinks Canadian farmers have too much money tied up in machinery. The British farmers control the marketing of their produce through marketing boards and co-operatives. An interesting question period followed.

George Williams thanked Mr. Sharp for his excellent talk and pictures.

TB Christmas Seals Campaign Needs Funds

The International Union Against Tuberculosis is in a position today that is comparable to that of the Canadian Tuberculosis Association in the early years of this century. At that time there was a pitifully small budget but the IUA had a secretary who went about organizing local and provincial groups and these undertook the raising of funds locally to meet local needs. They conducted local educational programmes. In fact they made their fund raising, the Christmas Seal Campaign, into a local educational campaign. This could be done in Asia and Africa just as surely as it has been done in America and Europe. We must give the Union the funds to do it.

Bank of Montreal Issues Annual Statement

Local, national and international operations of the Bank of Montreal have added up to mean the most active 12 months in the bank's 144-year history, according to Leslie Rawlings, manager of the Stirling B of M.

Releasing the bank's annual statement covering the period to October 31st, he said it showed that the local branch and some 875 other offices together had established new records in almost every phase.

Resources rose almost half-a-billion dollars to a new high of \$3,950 million, he said, while deposits, including Canadians' personal savings of some \$1,749 million, amounted to a record \$3,647 million.

Loans Increased

Loans of all categories — including N.H.A. mortgages, farm and home improvement loans, call loans, Family Finance Plan advances and loans to business and industry — totalled \$1,934 million, an increase of 9.08 per cent over the 1960 figure.

B of M earnings also reached a new peak at \$14,578,817. But this figure was only realized after income tax payments of \$18,043,791, the manager said. The earnings figure was 2.5 per cent more than a year ago.

Shareholders

Now 22,000 Of this amount, the bank's shareholders, now numbering some 22,000, are receiving dividends of \$2.05 per share — a total of \$12,453,750, or \$5-

500,041 less than the income tax bill. The manager also reported that "quick" assets amounted to \$2,012 million, representing 64.56 per cent of liabilities of the public of 3,742 million, versus 53.97 per cent last year.

The value of premises is shown at \$63,062,983, an increase of 13.3 per cent over the 1960 figure of \$55,661,047, an indication of the extent of the bank's building and modernization programme in this province and across the country.

THE BIBLE TODAY

An appeal for more Scriptures for Indonesia made recently provided a moderate increase. The supplies secured in San Francisco and carried by the S.S. Hope were nearly exhausted by the time the ship arrived at Honolulu. The remaining New Testaments are already spoken for and will be distributed when the ship returns to Djakarta.

The last of the available New Testaments were given out in Ambon and replacement of supplies is a major problem. Added to the shortage is the difficulty of delivery when the ship is constantly moving from port to port. Replacements have had to wait for the arrival of the ship at Singapore.

In many places where the "Hope" called the local mission schools could have used all available copies of the Scripture.

English is a second language in Indonesia, required in schools above the fifth grade. Many Indonesians use English, a few quite well.

The Bible Society must use great

discretion in trying to distribute the available Scriptures wisely.

A Sermon

(by Rev. R. Donnan)

Have you ever asked the question, "Why did it have to happen to me?" Perhaps it was a tragedy, sickness or bereavement that caused you to say this. It could be that you almost give up, so great was the burden you were caused to bear. Someone has said, "It is not ours to question the judgement of our God, it is but ours to follow the leading Hand of God. God knows best."

It seems this world is full of sickness and sorrow; many people have more than their share of troubles, yes, sometimes the future seems dark but for every night there is a day. Maybe I'm speaking to someone right now who is almost ready to give up. Friend there is always some way for God has promised to make way where there seems to be no way. These times of discouragement come to every one at one time or another — we all go through these dark hours.

Just now I think of Jacob, his back was against a wall, the only way out was to go forward. God brought him to this place for a purpose because He wanted to change Jacob. Jacob got desperate with God and he wrestled until the breaking of the day. It is in the hour of darkness that one gets desperate with God. It is in the hour of darkness that one realizes that they need His help and strength. Elijah the prophet of God met with great discouragement. He sat under a juniper tree and wanted to die. Elijah had this experience after a great victory, but God came and ministered to him.

Discouragement is a tool of the Devil. If he can get you discouraged enough to say its no use I might just as well give up, he has won a great victory. Job was one who might have

had a reason to say this. He lost his sons and daughters, his cattle, servants, his wife turned against him and said, "curse God and die." Job said: "He hath set darkness in my path, when I looked for good then evil came and when I waited for light then darkness came." But in spite of all his discouragements and disappointments he said: "I know that my redeemer liveth." Friend, back of the clouds the sun is always shining, take fresh courage, God will bring you through to the light of a new day.

There is one who suffered more than all. He was smitten in the face, spat upon, scoffed and mocked, yet He opened not His mouth. He was forsaken by God and His disciples; surely it was a dark hour, but His hour was coming, the hour of Resurrection.

Friend, I do not know what your discouragement might be, but God knows; you may be pressed to the point of despair, do not give up because there is nothing to turn back to but there is everything to gain in pressing on to your Eternal home in the sky. In Isaiah 41: 10 we have a precious promise, "Fear thou not, for I am with thee, be not dismayed for I am God. I will strengthen thee; yes, I will help thee; yea, I will uphold thee with the right hand and of My righteousness." Today, you can take this promise as your very own.

"It will be worth it all, When we see Jesus. Life's trials will seem so small When we see Christ. One glimpse of His dear face, All sorrow will erase; So bravely run the race Till we see Christ."

Bell Telephone Introduces New Pocket Phone Service

The nearest thing yet to pocket phone service was introduced here the end of November.

The Bellboy, a pocket-size transistor signal set, is Bell Telephone's new instrument — for people away from home or office who don't want to miss important calls.

"Essentially, it's an extension of the bell on your telephone," said M. G. Sweeney, Bell Telephone Manager for this Area. "We also consider it a step toward two-way pocket telephone service."

If someone calls while you are away from your regular telephone, the Bellboy sounds a gentle beeping tone. The "beep" lets you know you should go to the nearest telephone and call your office or other prearranged place.

"Bellboy service will be particularly valuable to such people as doctors, clergymen, sales and service personnel and contractors," Mr. Sweeney said.

The new service is effective indoors or out. It keeps the user in touch with clients or customers at all times. For example, if an important call comes in for a doctor while he is making his rounds, the person answering his calls immediately puts the doctor's personal signal on the air. This is picked up by the doctor's Bellboy — and his alone — and he knows that he is to telephone in as soon as possible.

The personal signal receiving set weighs only seven and a half ounces and can be carried easily in a pocket

or clipped to one's belt. It is powered by three small mercury-cell batteries which have a life of about 750 hours or roughly three months. An on-off switch controls the power. Another switch permits you to turn off the tone signal after it is received.

A SPECIAL MESSAGE TO CUSTOMERS OF THE B OF M

How your Money worked at my Bank in 1961

Leslie Rawlings, Manager
Stirling Branch
Bank of Montreal

This is my personal report to you on what the dollars you entrusted to us did in 1961. It must start with a "thank you" for the trust which you — and three million fellow Canadians — have shown in the Bank of Montreal, by depositing your savings with us.

Throughout 1961 your bank kept that money working hard for private individuals and for the community as a whole, through loans and investments. Much of that money went to people in all walks of life, to finance purchases of all kinds. It went to small and large businesses, expanding their operations. It helped create new jobs, it assisted farmers to improve their farms... built new schools and financed research and education... it paid for new roads and community modernization.

Every section of the country, and people in every walk of life, benefited by the money Canadians entrusted to the B of M.

Clearly, in 1961 these deposit-dollars of yours did a double job of work. They helped to build your future, and they did a big job in helping to make for a better future for Canada as a whole.

Leslie Rawlings

Facts behind the Figures
in the B of M's
144th Annual Report

DEPOSITS: These stood at the highest figure in the history of the Bank. Nearly half is the personal savings of customers. The remainder is money deposited by business firms, community organizations and governments. At the end of the Bank's 144th year on October 31st, 1961, total deposits amounted to \$3,646,622,258.

LOANS: Besides investments in government and other high-grade public securities, many thousands of loans were made throughout the year to people in all walks of life — to farmers, miners, fishermen, oilmen, lumbermen, ranchers, salaried people; to industrial and business enterprises large and small; to community organizations; and to Provincial Governments and Municipalities. Total loans at year-end — \$1,933,790,626.

When you save money at the B of M you not only keep it safe and earning interest for you, but you make a sound investment for yourself in Canada's growth now and in the years ahead.

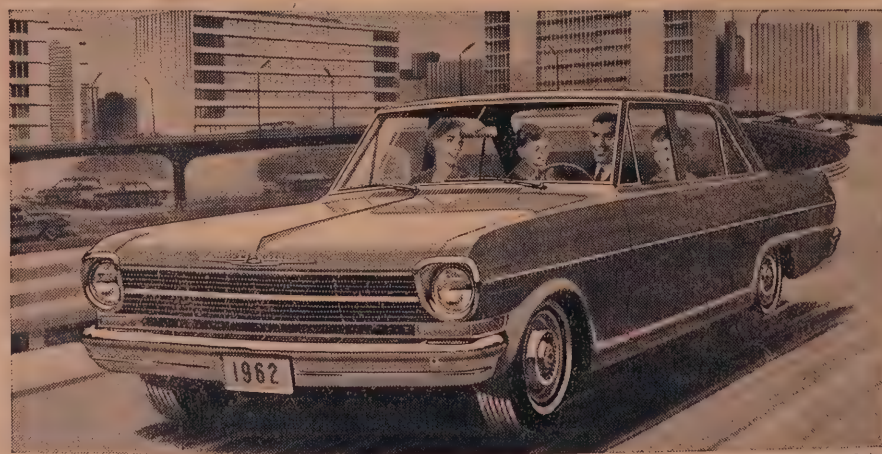

Whether you want to save money or borrow it for some useful purpose, you'll like doing business at the B of M. So, if it's about money, see Canada's first bank first!

POTATOES

Why is it recommended by people concerned with the health of our nation that we eat once a day, one potato? Because the potato is one of the few foods of the many we eat which provides us with some portion of almost all the important food nutrients we require daily for that glow of good health. Potatoes do this exceptionally well in the fall when they are comparatively new. They do this well at any time, if they are cooked in their jackets — in the oven, by steam in a pressure cooker, by boiling in a small amount of water. When potatoes are to be mashed or otherwise served without skins, they should not be peeled before cooking. The skins skim off easier and quicker after cooking and leave the vitamins and minerals which are found directly beneath the skin, relatively unharmed.

How long does it take to cook potatoes? It depends on the size. The Consumer Section, Canada Department of Agriculture, Ottawa, recommends 20 to 30 minutes for medium potatoes cooked in boiling water; 55 minutes for medium potatoes baked in a very hot oven (425 degs. F.).

The home economists also suggest that only enough potatoes required for the meal be cooked at one time. Although left over potatoes may be stored in their jackets in the refrigerator, they lose much of their Vitamin C content within a day or so.

When company comes to dine we like to serve something extra special. However, very often our time and our budget resorts to serving a fairly basic dinner menu. One way to give the main course a "party face" is to serve the potatoes in a way that changes them from plain food to a delectable dish. The Consumer Section, Canada Department of Agriculture in Ottawa suggests such lovely ideas as:

Duchess Potatoes

Six medium cooked, dry, mashed potatoes combined with yolk of 3 eggs, 3 tablespoons butter, a teaspoon of salt, a shake of nutmeg and 1 cup milk. Shaped into 12 mounds on a greased baking sheet, brushed with beaten egg white and baked in a very hot oven (425 degs. F.) until golden brown, 20 to 25 minutes.

Potatoes Annette

Very thinly sliced potatoes baked in a casserole with butter, chopped onions and grated cheese.

Potatoes Chantilly

Seasoned mashed potatoes topped with whipped cream, sprinkled with grated cheese and browned in a hot oven.

Potatoes a la Maitre d'Hotel

Small boiled potatoes served with a sauce made from 1 cup of butter, 2 tablespoons lemon juice and 2 tablespoons chopped parsley for six servings.

Can. Manufacturers Efficient Producers Says Stelco Steel Economic Adviser

A spirited attack on those who contend that Canadian manufacturers are inefficient producers was made in Brantford, Ontario, recently by Stuart Armour, Economic Adviser, The Steel Company of Canada, Limited.

Speaking under the title "The New Caesarism," Mr. Armour asked: "If Canadian manufacturing is so inefficient — as so many speakers have charged of late — how come we Canadians enjoy our current standard of living?"

"Any standard of living depends upon production, and Canadian manufacturing still provides by far the largest share of our gross domestic product," the Stelco economist said.

In addition, manufacturing is our largest employer by an overwhelming margin, and it thus pays the bulk of Canadian wages."

Mr. Armour pointed out that manufacturing also of itself is Canada's largest taxpayer, and without those taxes which it pays directly and without the taxes paid by its employees, the elaborate social structure Canadians have created since the end of World War II would soon collapse.

"It must be clear to everyone who views the Canadian scene objectively that had Canadian manufacturers not been amongst the most efficient to be found anywhere they could not long have remained in business," he said.

The Stelco executive asked his audience to consider the unusual — perhaps unique — handicaps with which Canadian manufacturers must contend just to stay in business. They have a very small, and now relatively static, domestic market spread over almost incredibly long distances. They have a terrain so rugged and a climate so harsh that only the intrepid can successfully overcome those factors.

Mr. Armour also stated that Canadians have a national bias toward the hewing of wood and drawing of water which reflects itself in a desire to encourage raw and semi-finished products exports even at the expense of manufacturers, who are largely tied to the small and inadequately protected domestic market by reason of their inability to set wage patterns in accordance with the economic facts of their own particular case. In no field, he claimed, do they have less room for manoeuvre than in the matter of their wage rates.

"When geography, and many other circumstances, caused us to allow the final say as to so many of our labour

and other policies to lie with those who live outside Canada," Mr. Armour asked, "were we not really putting the bulk of our secondary manufacturing industry out of the overseas export business?"

"This is a situation which must be irksome to most Canadians. It is, however, a situation with which we shall have to live until we have achieved a degree of national economic self-sufficiency which now appears to lie many years in the future."

"Until we can enlarge our domestic market to the point where we ourselves consume the bulk of the natural resources we are now capable of producing in such abundance; and until we come to rely upon our own manufacturers for the bulk of the things we need for the support of the North American standard of living, we shall remain shackled by our geographical location," he said.

"It would be nice to think that our domestic market is currently being enlarged at the rate necessary to set us free from our existing bondage to geography," the Stelco economist stated. He contended, however, that official statistics afford little or no encouragement in that direction.

"Put very starkly, we can have little hope of making much progress as exporters of manufactured goods until countries other than the U.S. raise their wages to something approaching parity with our own," Mr. Armour said. "How long they will take in achieving such parity is one measure of the length of time it will take us to become exporters of manufactured goods on the British, German, Italian or Japanese scale."

"In other words, for the foreseeable future our manufacturers must depend upon the domestic market for the bulk of their business, and that market is not now growing as it should."

"We need a larger domestic market — which means greater buying of Canadian manufactured products by the people of Canada and their governments. We manufacturers and the people of Canada also need a much lighter tax burden, and less government intervention into our lives — which means more personal freedom rather than more Caesarism."

"Only when we can get such facts through the heads of the Canadian people and their leaders can we expect to solve our greatest problem, and thus achieve the bright hopes which have been dangled before us."

Hospital Insurance Peace of Mind For Millions

One of a series of articles describing the Federal Health and Welfare Services Canadians get for their tax dollars.

A house never got built. A promising teenager couldn't go to college. A long-awaited holiday was never taken. These were some of the casualties of a by-gone era when heavy hospital expenses could wreck many plans for the future.

The coming of Hospital Insurance in 1958 ended this era for Canadians. Today, all ten provinces and two territories of Canada work with the federal government in providing their citizens with hospital insurance protection. Young or old, married or single, families or individuals, Canadians can rest easier, cushioned against sudden ruinous expense.

The programme was launched July 1st, 1958 under the Hospital Insurance and Diagnostic Services Act passed by Parliament in 1957. The Act enabled the provinces and the federal government to make agreements and act jointly in their programmes.

The federal government, using money from general revenue funds, pays about half of the provincial costs of the programme across the country. In the current fiscal year alone, \$270 million has been set aside for this purpose by the federal government.

What do Canadian taxpayers get for this expenditure? Actually, a great deal.

The Act stipulates that the provinces must provide Canadians with in-patient services including accommodation and meals, nursing services, diagnostic procedures such as x-ray and laboratory facilities, also drugs, operating room and related services. They are also covered for radiotherapy and physiotherapy, and entitled to the services of hospital personnel. All of these services come under the heading of "in-patient" services and do not differ from out-patient services except to the extent that the provinces choose to implement them, since out-patient services are optional. Each province decides how far it wants to go in this field. So far the range of out-patient services varies from province to province from no services at all to limited emergency, or to a fairly complete array of out-patient services.

Hospital insurance is available to

all residents of the province regardless of nationality, age, income or other circumstances.

Tourists, people passing through, or visitors to provinces can't claim protection. But residents can get services when visiting outside their home provinces, under stated circumstances which vary from province to province.

Never before has this type of care been offered to Canadians on similar terms — either by voluntary, commercial or provincial agencies.

The hospital insurance assures everyone adequate health protection all year round as well as peace of mind regarding health problems — and hospital expenses.

A reporter from a big city newspaper stopped to visit a friend who ran a little country weekly.

He asked his friend, "How can you keep up your circulation in a town where everyone already knows what everyone else is doing?"

The editor grinned, then answered: "They know what everyone's doing, all right, but they read the paper to see who's been caught at it!"

60th Anniversary St. Andrew's W.M.S. at West Huntingdon

IVANHOE — St. Andrew's Presbyterian Church W.M.S. of West Huntingdon observed its 60th anniversary on November 10th. The president, Mrs. David Fargey presided and extended a warm welcome to the guests. Devotions were led by Mrs. Milton Shaw.

Greetings were extended as follows: the session of St. Andrew's and the Presbytery, Rev. K. J. Rooney; Presbyterial, Mrs. Vernon Weir and the Synodical, Mrs. W. H. V. Walker.

Historical Report

The history of St. Andrew's W.M.S. was given by Mrs. John Wallace in which it was stated that the Society was organized by the Rev. S. S. Burns in the year 1901 in the month of Oct. Charter members were: Mrs. Harvey Wallace; Mrs. Geo. Post; Mrs. John Fleming; Mrs. Allan Wright; Mrs. R. Roy; Mrs. Hulsie Rollins and Mrs. Samuel Shaw. The officers for 1901 were: President — Mrs. Harvey Wallace; Vice-president — Mrs. George Poste; secretary-treasurer — Mrs. John Fleming and organist — Miss Annie Fargey.

To facilitate its work the Woman's Foreign Missionary Society, as it was then called, affiliated with the Ladies' Aid in 1909 with Mrs. Henry Wallace the first president. A few years later, the two societies amalgamated having one president and two treasurers and have continued to work together up to the present time.

Past Presidents

The presidents through the years were as follows: Mrs. Harvey Wallace, 1901-1906; Mrs. George Post, 1907-1909; Mrs. Henry Wallace, 1910-1913; Mrs. George Post, 1914-1916; Mrs. John Fleming, 1917-1920; Mrs. Peter McInroy, 1921-1925; Mrs. William Shaw, 1925-1928; Mrs. Samuel Donnan, 1929-1931; Mrs. Richard Haggerty, 1932-1933; Mrs. William Shaw, 1933-1936; Mrs. John Wallace, 1937-1938; Mrs. Harry Thompson, 1939-1940; Mrs. William Benson, 1941-1943; Mrs. Donald Haggerty, 1944-1945; Mrs. Milton Shaw, 1946-1948; Mrs. John McInroy, 1949-1950; Mrs. Morley Haggerty, 1951-1952; Mrs. Barton Haggerty, 1953-1954; Mrs. Harry Benson, 1955-1956; Mrs. Harold Thompson, 1957-1958; Mrs. William Donnan, 1959-1960 and Mrs. David Fargey is the president for this year, 1961.

Organize Mission Band

Through the efforts of the W.M.S., a mission band was organized in 1933 by Mrs. Joseph Koffend and Miss Jessie Duggan was the first leader. Leaders through the years were: Mrs. Samuel Donnan; Mrs. Donald Haggerty; Mrs. Milton Shaw; Mrs. John Wallace and Miss Bessie Fleming.

A generous contribution was sent to the Presbyterial secretary each year for mission work. Twice the group won the banner. The prescribed mission and Bible study were used. The group was disbanded in 1957 and a C.O.G. group was organized by the Presbyterial children's department secretary, Bessie M. Fleming. This group is under the leadership of Mrs. Harold Thompson and Mrs. Harry Benson.

All the women of the congregation belong to the W.M.S. All are life members. A bale is sent away each year. The W.M.S. allocation has always been met. The present membership is 20.

The foundation of the Society has been well and truly laid. Second and third generations are carrying on the work begun by the pioneers. "We must not only cherish our heritage but pass it on, enlarged and enriched." The coming year will be a challenging one, with new opportunities and a

challenge for fresh beginnings.

Memorial Service

A memorial service was conducted by Miss Bessie Fleming and Mrs. John McInroy and flowers were placed in the church in memory of the following: Mrs. William Shaw in memory of Mrs. Samuel Shaw; Mrs. Mary Aydelott, of Elkart, Indiana, in memory of Miss Martha Horton; the Ladies' Aid in memory of past members; Mrs. John Wallace in memory of Mrs. Richard Haggerty, and by Miss Bessie Fleming and Mrs. Kenneth Nicol in memory of Mrs. John Fleming, Miss Annie Fleming, Mrs. S. Donnan and Miss M. J. Fleming.

A duet "I Must Take the Glad Evangel" was rendered by Mrs. Roy De-mille and Mrs. George Wood.

Guest Speaker

The guest speaker, Mrs. K. Denton Taylor, of Belleville, was introduced by Mrs. K. Rooney and she told of the building of the new Deaconess Training School in Toronto, which is now called Earl College. Mrs. Taylor is chairman of the board. The erection of the new college building was made possible by large and small gifts from congregations and individual church members.

The guest speaker in comparing missionary work of 60 years ago with that of today said, "While there are many changes our aims and purposes are the same." Mrs. Taylor closed her inspiring message by urging that more time be spent in study and prayer and a rededication of members, time, talents and money.

Mrs. Harry Benson, on behalf of those present, expressed appreciation to Mrs. Taylor for her inspiring address.

The offering was presented by Mrs. Harold Thompson and Mrs. William Donnan and dedicated by the Rev. F. A. Crook, of Stirling.

Mrs. Harry Thompson was in charge of the register, and Mrs. K. Rooney, Mrs. William Shaw and Mrs. David Fargey welcomed the guests who were present from Stirling, Beulah United Ivanhoe, St. Andrew's Belleville, Tweed, Mount Pleasant, Moira, West Huntingdon United and Crookston.

Following the programme a delicious lunch was served in the church parlours. Mrs. John Hassall, Mrs. John Wright poured tea and Mrs. William Shaw placed the knife in the prettily decorated anniversary cake. Candlelight Ceremony

A candlelighting ceremony was conducted by Rev. Rooney and Mrs. Wm. Shaw. Mrs. David Fargey and Mrs. Lindsay Sills lighted the candles, representing the past, the present and the future.

NEWS FOR THE BUSY FARMER

NOW IS THE TIME TO APPLY AGRICULTURAL LIMESTONE

Many farmers apply lime in the fall because heavy equipment can be used for trucking with little or no damage to the soil. The question which often arises in the farmer's mind is, "Does my soil need lime?"

Lime should only be applied if, on a soil test, the land is found to be acid, or needs calcium or magnesium as plant food, says Professor W. T. Ewen of the O.A.C. Soil Science Department.

The main benefits from applying lime, according to Professor Ewen, are:

— A wider range of crops can be grown.

— Soil micro-organisms thrive in a near neutral soil.

— Most soil nutrients are more readily available for plant growth in soils that are near neutral, especially phosphorous and many minor elements.

— Liming increases the efficiency of fertilizer.

Over liming, or liming soils which are neutral, can cause reduction in the availability of minor elements and phosphorous, and is not recommended.

Limestone is one of the cheapest fertilizing elements you can buy, says Professor Ewen. Prices at the quarry level vary from \$1.25 to \$5.00 a ton, depending on the quality, whether it is purchased in bag or bulk form, and whether it's kiln dried or mine run.

Assistance is available to farmers

purchasing limestone through the Agricultural Limestone Transportation Assistance Policy of the Ontario Department of Agriculture. Subsidy is available at the rate of five cents per ton per mile up to a maximum of \$2.50 per ton from the quarry to the farm in Southern Ontario, and 75 per cent of the freight rate in Northern Ontario.

CO-OPS SELL THIRD OF FARM PRODUCTS

All agricultural areas in Canada have co-operatives to serve them, says Vernon Heighon, Canada Department of Agriculture economist, reporting on the 1960 progress of the movement.

Marketing, purchasing, service and fishermen's co-ops did \$1,407 million worth of business in 1960, an increase of three per cent in one year. The 1,936 marketing and purchasing co-ops reporting (out of a total of 2,093) accounted for \$1,364 million of this.

Co-ops marketed one-third of all agricultural products entering commercial trade, the same proportion as in the previous year. Sales of merchandise and farm supplies increased by \$30 million to reach \$363 million.

There are 10 provincial and regional co-operative wholesales made up of local co-ops and belonging to the Inter-provincial Co-operatives Ltd., the national purchasing and manufacturing agency. The wholesales are central agencies for marketing farm products, selling farm supplies, and operating lumber mills, oil refineries,

oil wells and coal mines. Flour and feed headed the supplies handled by the wholesales with gas, oil and auto supplies next; hardware and machinery a close fourth and groceries fifth.

SUCKLING PIGS NEED SPECIAL CARE

Keep in mind the importance of a supply of fresh water for your suckling pigs, stress livestock specialists with the Ontario Department of Agriculture. Young pigs that have all the clean water they will drink usually make more rapid gains and are more resistant to disease. They advise filling clean troughs in the creep pens with fresh water daily.

When pigs are about ten days old, the flow of the sow's milk starts to diminish. At this stage, skim milk and cracked wheat or rolled oats will provide a good supplementary feed (if you don't feed milk, use a good pre-starter commercial feed).

Towards weaning time, slowly start replacing the early feed with a commercial or home-mixed pig ration. Experiments in Canada have definitely proved that the heavier pig is at weaning time, the more quickly he will reach market weight.

BEAT LOOSE SMUT

Loose smut in barley can be controlled, or at least reduced, by selecting healthy seed.

The farmer who buys registered seed knows that it would not be accepted for registration if more than four per cent of the kernels were infected. Such seed can be tested at the Canada Department of Agriculture's Plants Products laboratories at Ottawa, Winnipeg and Saskatoon.

Commercial seed can be cleaned up considerably by screening out all but the large kernels for seeding. It has been found that the percentage of infection in large kernels is less than in the smaller ones.

ASK THESE TWO QUESTIONS WHEN CULLING COWS

Ontario Department of Agriculture livestock specialists have no magic formula for culling out unprofitable cows. They do suggest, however, that you ask yourself these two questions.

— Will it pay to replace that cow with a higher producer?

— Will it pay to remove that cow without replacing her?

Most cows produce about half of their total lactation during the first four months. If you want to keep a cow at the break-even point or, say 300 pounds of butterfat, the cow must produce 150 pounds during her first 4 months of lactation. If she doesn't, you can be fairly sure she won't reach that break-even point.

The break-even point above is just an example. It's different in every herd and is a figure you get from calculating your costs against your milk cheque. Pick the one that best suits your herd and then ask yourself the two questions.

HOW TO BUY A FAN

If you had ventilation problems in your stable last winter, such as odors, draughts, or condensation, it might pay to install a fan, suggests Professor Frank Theakston, building engineer at O.A.C.'s Engineering Science Department. He offers these suggestions to help you choose the right fan for your barn.

● Buy a fan on the basis of cubic feet per minute (cfm) rather than blade size, such as 14-inch or 15-inch. The output of two 16-inch fans made by different manufacturers is often different.

● Use completely dust-proof, enclosed, capacitor-starter or split-phase motors on the fans. It's best to use a thermostat control.

● Protect motors with a thermal overload switch. Fans sometimes overload or the shutters may freeze.

● Buy a reliable make from a reliable dealer. Make sure you can get

parts and service when you want them.

● The fan housing, motor, and metal control boxes should be grounded for safety. Either use a grounding conductor in the electrical cable or run a separate conductor back to the service box ground.

Timely Tips

Christmas is traditionally the time of giving and receiving gifts from family and friends. Let your gift this year be the most important one of all — yourself, says H. Wright, Farm Safety Specialist, Ontario Department of Agriculture. No material gift can mean as much to your family as having you there with them. So be careful in your daily work and be around at Christmas to present that most important gift.

It's not too early to start thinking about seed grain for next spring. There is still plenty of grain from which to select seed, and you can get an early report on your germination test. Stan Young, O.A.C. crops specialist, says that much of this year's oat crop was discolored. This means you will need a germination test since discoloration may lower, or even destroy, the growing power of seed.

If you plan to file your income tax on a cash basis this year, now's the time to think about what effect paying those bills, or holding off till January, will have on your returns, says Ontario Department of Agriculture economists. If you think your 1961 income will be low, it may be to your advantage to hold off paying some bills until next year.

Now's the time to start thinking about your fertilizer needs for next year, says Tom Lane, O.A.C. soils specialist. Discount prices offered early in the new year can save you \$5.00 to \$8.00 per ton.

Sure is a difference between good, sound reasons and reasons that sound good.

Cooking Comments

In addition to being such a rich source of Vitamin C, turnips store well for winter use, advises the Ontario Department of Agriculture. Raw turnip sticks are a favourite finger food.

Plan menus for a day or, even better, for a week at a time. Be sure meals are balanced and include all the foods recommended for daily use for good health.

To be at its best, fresh milk needs to be kept clean, cold, covered, and away from direct light.

When it comes to meat, thrifty buyers think of the price in relation to the cost per serving rather than per pound. The amount of gristle and fat affects the number of servings.

PROBABLY THE MOST SENSIBLE CAR YOU CAN BUY TODAY

1962 FORD FAIRLANE

The new-sized Ford Car — FAIRLANE — is a completely new car, especially in size and price. It has been deliberately designed to meet more of the needs of Canadian motorists. It is a big car in room, luxury and performance... yet it competes with the compacts in price and economy. The new Fairlane and Fairlane 500 are a full foot shorter than normal big cars... 16 inches longer than a compact, giving roomy, full-size comfort for six passengers. Solid single-unit construction trims excess weight away and reduces rattles to a minimum. Upholstery and appointments reflect more built-for-people luxury.

Ford carefree features promise service savings mile upon mile. And there's new economy with the Standard Six or optional V-8 engine that beautifully blends thrust with thrift!

Only Ford could bring you a car so fine at a price so low. The Fairlane is priced as low as many compacts, even lower than some! It is probably the most sensible car you can buy today! See, drive and price the new Fairlane or Fairlane 500 at your local Ford Dealer now!

TIPS ON INCREASING MILK PRODUCTION

Thousands of dairymen who have switched to Purina have upped production per cow as much as 1,000 lbs. per lactation. Extra milk for extra profit. That's why we say Purina feeding costs less! Because in the long run it's actually cheaper to feed a top-quality ration than to skimp your cows on poor feeds.

Purina Milking Chows help hold body condition; utilize their roughage better; and they supply the milk-making properties needed for high production.

I am inviting local dairymen to prove this for themselves. Pick several cows or your entire herd. We tape the cows and weigh the milk. Feed Purina Milk

Chow Checkers according to production. In 30 days we'll re-weigh the cows, and the milk. You'll see the results for yourself—the extra profits you'll get from feeding this body-building Purina Chow. Why not call me today, or drop in to our Store with the Checkerboard Sign and let's talk about doing a Purina feeding-for-profit test right on your own farm.

It takes longer to stop when roads are slippery!

At 20 miles an hour, stopping takes 10 times as long on ice or sleet as on a dry road!

If you want to avoid winter accidents

slow down; keep your windshield free of ice and snow; follow at a safe distance. If you do have to stop in a hurry, pump your brakes, don't jam them. (Power brakes need gentle pumping.)

"We do not suggest that Peterboro
itself was responsible for Mr. Brown's
election; his own qualities are suf-

sumed, however, that the constitu-

in the offices of the Ministers and
